Excellence * Innovation * Stewardship
Integrity * Teamwork * Public Service

It should be noted that approval of an agricultural and forestal district application does not automatically qualify a property for land use value assessment. Upon application to the Department of Tax Administration (DTA) for taxation on the basis of land use assessment, DTA must independently determine if the subject property meets the definition of either agricultural and/or forestal use, as well as the appropriate guidelines, including minimum acreage, for either use, as required by Title 58.1 of the Code of Virginia, which is found in Appendix 11.

It should be noted that it is not the intent of the staff to recommend that the Board, in adopting any Ordinance provisions, relieve the applicant/owner from compliance with the provisions of any other applicable ordinances, regulations, or adopted standards.

It should be further noted that the content of this report reflects the analysis and recommendation of staff; it does not reflect the position of the Board of Supervisors.

The approval of this application does not interfere with, abrogate or annul any easements, covenants, or other agreements between parties, as they may apply to the property subject to this application.

For information, contact the Zoning Evaluation Division, Department of Planning and Zoning, 12055 Government Center Parkway, Suite 801, Fairfax, Virginia 22035-5505, (703) 324-1290.

A&F District Renewal

AR 2006-SP-002

**A GLOSSARY OF TERMS FREQUENTLY
USED IN STAFF REPORTS WILL BE
FOUND AT THE BACK OF THIS REPORT**

DESCRIPTION OF APPLICATION

AR 2006-SP-002 is a request to renew the Schulz Local Agricultural and Forestal (A & F) District for an additional eight-year term (under the provisions of Chapter 115 of the Fairfax County Code). A & F Districts encourage the preservation of significant tracts of agricultural and forested land throughout the County by providing a reduced real estate tax assessment in exchange for a commitment to preserve the land for the length of the term. While certain exceptions are permitted, the land is expected to remain at its present use and development intensity for the extent of the 8-year term. Removal of the district before the conclusion of the term is subject to a penalty and payment of roll-back taxes, per the terms in Article 6 of Chapter 115.

Applicant: George F. and Susan M. Schulz

Acreage: 23.03 acres

Uses: Forested or undeveloped – 23.03 acres

A copy of the applicant's application is contained in Appendix 2; Proposed Ordinance Provisions are contained in Appendix 1.

BACKGROUND

The property has been owned by the applicants' family for approximately 35 years, and the property has remained undeveloped since that time.

COMPREHENSIVE PLAN PROVISIONS

Plan Area: Area III

Planning District: Pohick

Planning Sector: P5-Dominion Community Planning Sector

Plan Map: Residential use at a density of 0.1 to 0.2 du/ac. and private open space

LOCATION AND CHARACTER

The subject property is located in the southwestern portion of the County, at the terminus of Rondelay Lane in the Springfield District, and is zoned R-C (Residential Conservation). Large-lot residential properties, also zoned R-C, adjoin the majority of the District, with Fountainhead Regional Park adjacent to the south.

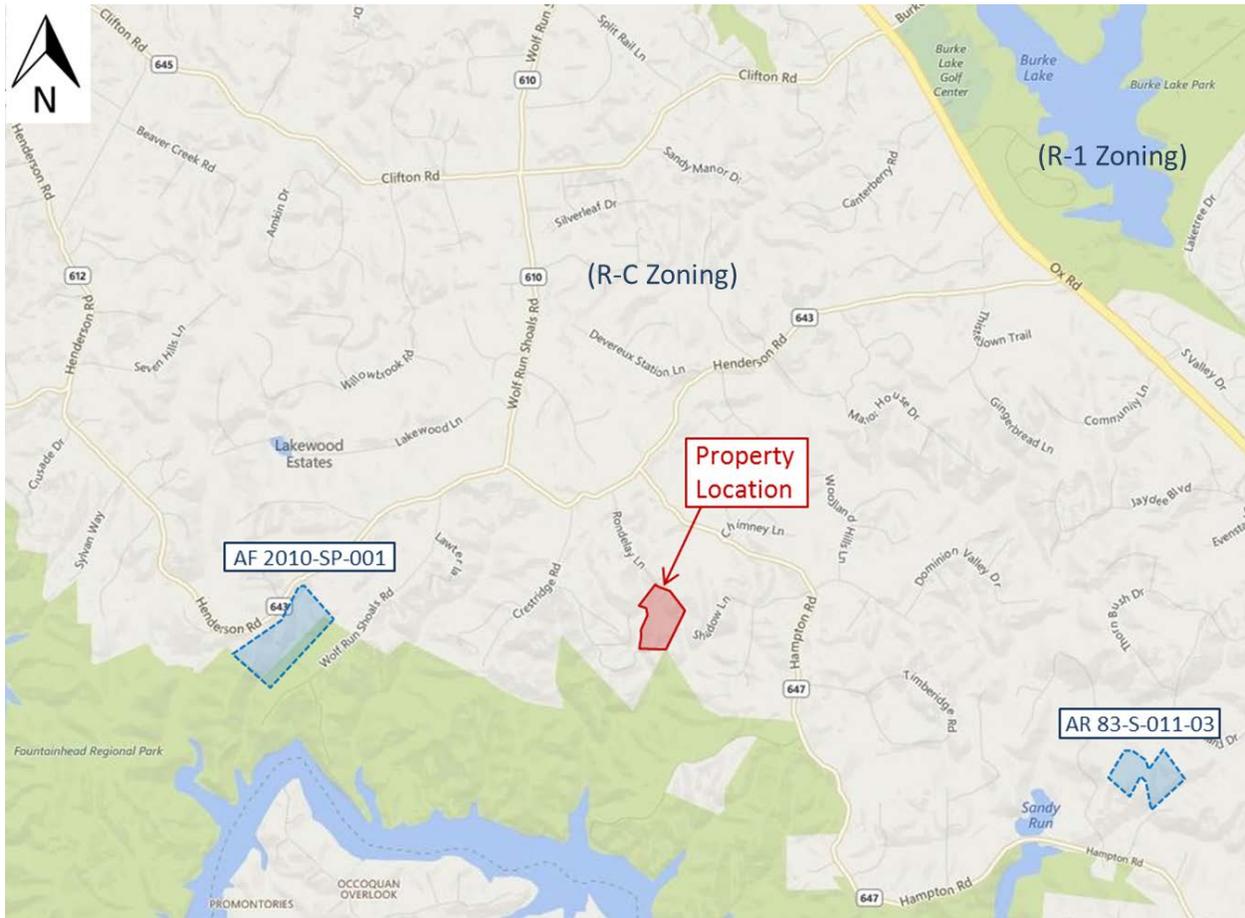

Figure 1: District location map.

The 23-acre property, consisting of four parcels, is largely wooded; the northern half of the District consists entirely of dense forest, while the southern half also contains open areas. The property includes approximately 375 feet of frontage on Rondelay Lane, as well as an access easement, which is currently overgrown, connecting the southern two parcels to September Lane. The property remains undeveloped, with no structures on the site, and there has been no disturbance of the site for many years.

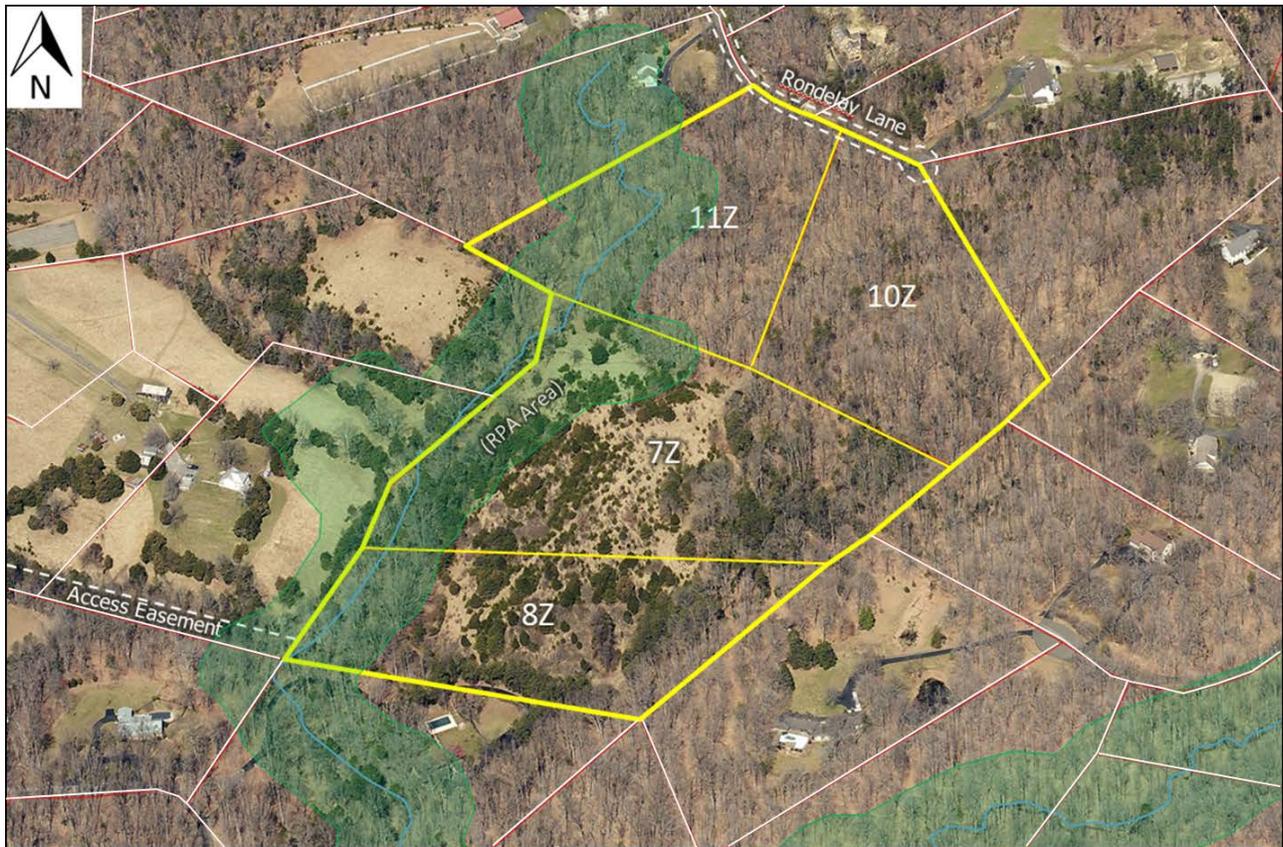

Figure 2: Aerial view of the property.

STAFF ANALYSIS

Land Use/Environmental Analysis (Appendix 3)

Staff feels that this Agricultural and Forestal District continues to be compatible with the existing and planned low-density residential character of the area, and is consistent with the Comprehensive Plan goal of maintaining the rural character of this portion of the County.

The property falls within the Ryans Dam watershed. An unnamed tributary traverses the site, and is protected by Resource Protection Area (RPA) and Environmental Quality Corridor (EQC) regulations. The dense, wooded buffers on the site protect the water quality of the tributary, and staff recommends that the property owners continue to maintain, preserve, and enhance the RPA/EQC areas. Staff feels that renewal of this Agricultural and Forestal District is in harmony with the environmental policies of the Comprehensive Plan, which support preservation of water quality in the Occoquan Reservoir watershed.

Soil and Water Conservation Analysis (Appendix 5)

Since there is no agricultural use on the property, a soil and water quality management report is not currently required; however, a conservation plan was prepared for the site in conjunction with the previous renewal (2006) and is included as Appendix 5.

Forestry Analysis (Appendix 4)

The Area Forester inspected the property and prepared a memo (dated August 13, 2015) that recommended the guidance of the previous Forest Management Plan (dated July 2006) continue to be followed. The existing forest canopy was found to be in generally good condition, though there is concern about the presence of invasive species and a lack of regeneration of forest resources, likely due to deer browse; both are issues common to most forests in Fairfax County. Recommendations are included in the Forest Management Plan to help address invasive species, as well as to further reduce the size of the deer herd on the property.

An Ordinance provision is proposed that requires the applicant to continue to conform to the recommendations of the 2006 Forest Management Plan, which may be amended if deemed necessary, for the life of the district.

Transportation Analysis (Appendix 6)

This application does not represent any conflict with the Countywide Plan transportation recommendations and would have no traffic impact. No projects that would affect the site are included in current construction programs. There are no transportation-related concerns with the application.

Parks Analysis (Appendix 7)

The Park Authority supports the establishment and continuance of A&F districts as they further goals of the FCPA policy manual. Furthermore, Park Authority staff has determined that this application bears no adverse impact on the land, resources or service levels of the Park Authority.

Agricultural and Forestal District Criteria Analysis

Article 5 of Chapter 115 of the Fairfax County Code contains two sets of criteria which are designed to serve as a guide in the evaluation of proposed Local Agricultural and Forestal Districts. All of the applicable criteria in Group A, and least two criteria from Group B should be satisfied by the proposed district. It is important to note that these criteria are a guide to be applied when establishing, renewing or amending a District; they are not prerequisites. The following is an evaluation of the proposed district's conformance with these criteria:

Criteria Group A:

1. *All district acreage should be currently devoted to agricultural use or forestal use or should be undeveloped and suitable for such uses, except that a reasonable amount of residential or other use, related to the agricultural or forestal use and generally not more than five acres per district, may be included.*

All district acreage is currently undeveloped and either in a forested state, or suitable for grazing. Therefore, staff believes that this criterion has been satisfied.

2. *All lands in the district should be zoned to the R-P, R-C, R-A, or the R-E District.*

The property is zoned R-C; therefore, this criterion is satisfied.

3. *In general, the district should be consistent with the Comprehensive Plan. The following land uses identified in the Plan are appropriate for a district: .1-.2 dwelling unit per acre; .2-.5 dwelling unit per acre; .5-1 dwelling units per acre; Private Recreation; Private Open Space; Public Park; Agriculture; Environmental Quality Corridor. Lands not planned as such may be considered for a district if they meet at least 3 of Criteria Group B.*

The property is planned for residential use at a density of 0.1 to 0.2 dwelling unit per acre (du/ac). Therefore, this criterion has been satisfied.

4. *A majority of the surrounding land within one-quarter mile of the district should be planned according to the Comprehensive Plan for uses identified in A(3) above. Exceptions may be made for lands located at the edge of a planned growth area or which meet at least three of the criteria of Criteria Group B, if no conflicts with surrounding uses, existing and planned, are evident or likely.*

All surrounding land is also planned for low-density residential uses, at a density of 0.1 to 0.2 du/ac, or public park land, which satisfies this criterion.

5. *All farms to be included in a district should be at least twenty (20) acres in size. A farm may include several parcels of land; however, all parcels must have the same owner or else owners must be members of the same immediate family or a family trust or family corporation. A farm must contain at least fifteen acres of land in agricultural use. A farm may include non-contiguous parcels within one mile of the core acreage (the largest parcel or group of contiguous parcels or the parcel where the farm buildings are located) as long as the non-contiguous parcels are predominately agricultural in use and as long as the total acreage of each individual farm (including contiguous and non-contiguous land) is at least twenty acres.*

The subject property contains no agricultural use, so would not be considered a farm district. Therefore, this criterion does not apply and the property would be subject to Criterion 6.

6. *All other properties not included in a farm as defined in (5), that is, forested and partially forested properties, and properties with less than 15 acres in agricultural use, should be at least twenty acres in size. These properties may contain several parcels, but all parcels must be contiguous, and all must have the same owners or else owners must be members of the same family or a family trust or family corporation.*

The subject property exceeds the 20-acre minimum size requirement and consists of four contiguous parcels, under common ownership – which satisfy the requirements of this criterion.

7. *Approximately 2/3 of the land (66%) in agricultural use in the district should contain Class I, II, III, or IV soils as defined by the USDA Soil Conservation Service. Districts having more than 1/3 of the land in agricultural use containing Class V-VIII soils may be considered if such lands have been improved and are managed to reduce soil erosion, maintain soil nutrients, and reduce non-point pollution.*

The property is not in agricultural use, so this criterion does not apply.

8. *Agricultural land in the district should be used in a planned program of soil management, soil conservation, and pollution control practices which are intended to reduce or prevent soil erosion, maintain soil nutrients, control brush, woody growth and noxious weeds on crop land, hay land, and pasture land, and reduce non-point source pollution. Exceptions to this criterion may be made only for those agricultural lands which, upon initial application for the establishment of a district are not used in such a program, but for which a conservation plan is being prepared or has been requested from the Northern Virginia Soil and Water Conservation District.*

Since there is no agricultural use on the property, a Soil and Water Conservation Plan is not required. However, such a plan was prepared by the Northern Virginia Soil and Water Conservation District for the subject property in conjunction with the previous renewal, at the request of the applicants. That Plan is included as Appendix 5 of this report, and an Ordinance Provision is carried forward that requires conformance with the plan.

9. *Forest land and undeveloped land in the district should be kept in an undisturbed state, or if periodically harvested or experiencing erosion problems, shall be used in a planned program of soil management, soil conservation, and pollution control practices which are intended to reduce or prevent soil erosion, maintain soil*

nutrients, and reduce non-point source pollution. Exceptions to this criterion may be made only for those lands which upon initial application for the establishment of a district are not used in such a program but for which a conservation plan is being prepared or has been requested from the Northern Virginia Soil and Water Conservation District or the Virginia Division of Forestry.

A letter, dated August 13, 2015, was prepared by the Area Forester (Appendix 4), recommending that the applicant continue following the recommendations of the prior Forest Management Plan for the property, that was completed by the Virginia Department of Forestry on July 18, 2006. A Proposed Ordinance Provision requires the applicant to implement that Plan for the life of the A&F District.

10. *There should be evidence of a history of investment in farm or forest improvements or other commitments to continuing agricultural or forestal use(s) in the district. In particular, districts with no history of investments in farm or forest improvements must evidence a firm commitment to agricultural or forestal uses for at least the life of the district.*

There is no history of recent improvements to the site, but the applicants remain committed to preserving the undisturbed forested state, and to follow the recommendations of the above-mentioned Forest Management and Soil and Water Quality Management Plans for the life of the district. Staff considers this criterion satisfied.

Criteria Group B:

1. *Farm and/or forest products have been regularly produced and sold from the property during the last five years.*

There have been no farm or forest products produced on the property and sold within the past five years, so this criterion is not met.

2. *The land provides scenic vistas, improves the aesthetic quality of views from County roads or contributes to maintaining the existing rural character of an area.*

The property does provide scenic views from surrounding properties (including Fountainhead Regional Park) and contributes to the rural character of the area. This criterion has been met.

3. *The property contains an historically and/or archaeologically significant site which would be preserved in conjunction with the establishment of a district. A site that is listed on the Federal Registry of Historic Places, the State Registry of Historic Places and/or the County Inventory of Historic Places will be considered historically and/or archaeologically significant. A property which contains a site that is historically and/or archaeologically significant by the County Archaeologist, or is*

located in an area with a high potential for archaeological sites, provided that the property owner has agreed to permit the County Archaeologist access to the site, may also be considered historically and/or archaeologically significant.

There are no sites within the District which are listed on the Fairfax County Inventory of Historic Sites. Therefore, this criterion is not satisfied. A Historic Resource Planner from the Department of Planning and Zoning evaluated the site, however, and issued a memo (Appendix 8) that commends the owners for conserving the property, and encourages them to consult with the Cultural Resource Management and Protection Branch of the Park Authority to investigate whether historic resources may exist on the site.

4. *Farming or forestry operations practice unique or particularly effective water pollution control measures (BMPs).*

No farming or forestry operations have taken place on the property in the past eight years, so this criterion is not met.

5. *The land is zoned R-A, R-P, or R-C.*

The subject property is zoned R-C. Therefore, this criterion is satisfied.

6. *The land is entirely in a permanent open space easement.*

The subject property is not located within a permanent open space easement; therefore, this criterion is not satisfied.

As previously noted, these criteria serve as a guide in determining whether or not an agricultural district should be established; they are not a prerequisite for establishing a district. As previously stated, all of the criteria in Group A and at least two criteria in Group B should be satisfied. It is the opinion of Staff that this application satisfies all Group A criteria and two (2) of the criteria in Group B.

AFDAC RECOMMENDATION (Appendix 9)

On September 1, 2015, The Agriculture and Forestal District Advisory Committee (AFDAC) voted to recommend that the Board of Supervisors approve renewal of this district, subject to the Ordinance Provisions included as Appendix 1 of this report.

CONCLUSIONS AND RECOMMENDATIONS

Staff Conclusions

- Staff believes that the proposal to renew the Schulz Local Agricultural and Forestal District satisfies the applicable criteria contained in Sect. 115-5-1 of Chapter 115 of

the County Code; exceeds the minimum acreage requirement; and is in conformance with the Comprehensive Plan.

Staff Recommendations

- Staff recommends that Appendix F of the Fairfax County Code be amended to renew the Schulz Local Agricultural and Forestal District, subject to the proposed Ordinance Provisions contained in Appendix 1.

It should be noted that approval of an agricultural and forestal district application does not automatically qualify a property for land use value assessment. Following Board action on an application, the Department of Tax Administration must independently determine if the subject property meets the definition of either agricultural and/or forestal use, as well as the appropriate guidelines for either use, as required by Chapter 58 of the Code of Virginia, which is found in Appendix 11.

It should be noted that it is not the intent of staff to recommend that the Board, in adopting any Ordinance Provisions associated with this case, relieve the applicant/owner from compliance with the provisions of any other applicable ordinances, regulations, or adopted standards.

It should be further noted that the content of this report reflects the analysis and recommendations of staff; it does not reflect the position of the Board of Supervisors.

PROPOSED ORDINANCE PROVISIONS
November 25, 2015
AR 2006-SP-002

If it is the intent of the Board of Supervisors to renew the Schulz Local Agricultural and Forestal District as proposed in AR 2006-SP-002, pursuant to Chapter 36.1 of Title 15.1 of the Code of Virginia and Chapter 115 of the Fairfax County Code, on Tax Map Parcels 96-3 ((1)) 7Z, 8Z, 96-3 ((2)) 10Z, and 11Z, the staff recommends that the approval be subject to the following Ordinance Provisions:

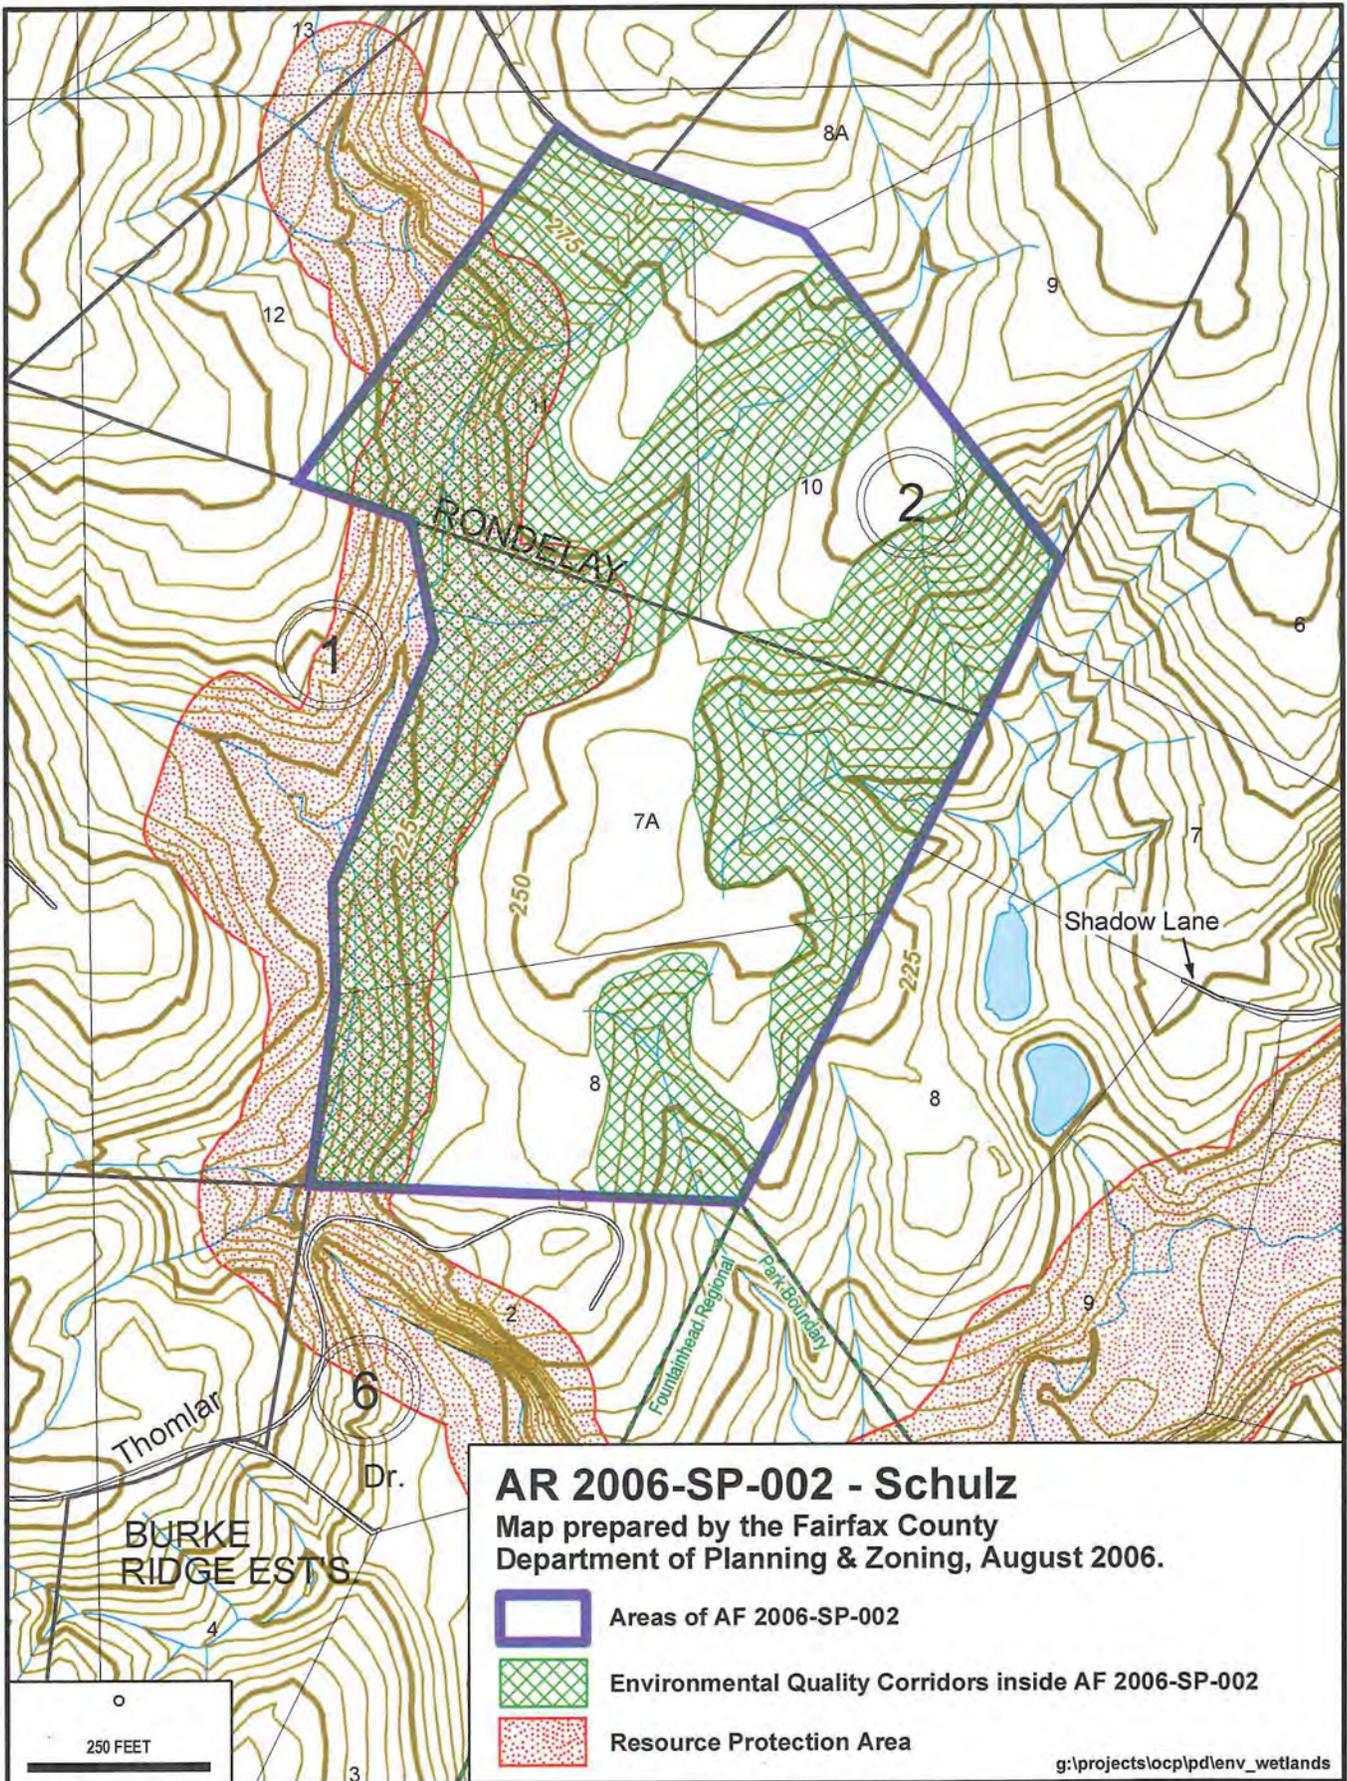

Standard Provisions (From Chapter 115)

- (1) That no parcel included within the district shall be developed to a more intensive use than its existing use at the time of adoption of the ordinance establishing such district for eight years from the date of adoption of such ordinance. This provision shall not be construed to restrict expansion of or improvements to agricultural or forestal use of the land or to prevent the construction of one (1) additional house within the district, where otherwise permitted by applicable law, for either an owner, a member of an owner's family, or for a tenant who farms the land;
- (2) That no parcel added to an already established district shall be developed to a more intensive use than its existing use at the time of addition to the district for eight years from the date of adoption of the original ordinance.
- (3) That land used in agricultural and forestal production within the agricultural and forestal district of local significance shall automatically qualify for an agricultural and forestal value assessment on such land pursuant to Chapter 4, Article 19 of the Fairfax County Code and to Section 58-769.4 et seq. of the Code of Virginia, if the requirements for such assessment contained therein are satisfied.
- (4) That the district shall be reviewed by the Board of Supervisors at the end of the eight-year period and that it may by ordinance renew the district or a modification thereof for another eight-year period. No owner(s) of land shall be included in any agricultural and forestal district of local significance without such owner's written approval.

Additional Provisions

- (5) The applicants shall implement and abide by the recommendations of the Forest Management Plan, dated July 18, 2006 for the life of the Schulz Local Agricultural and Forestal District. The Forest Management Plan may be updated from time to time as determined necessary by the Area Forester.

- (6) The applicants shall implement and abide by the recommendations of the Soil and Water Conservation Plan, which was prepared by the Northern Virginia Soil and Water Conservation District on August 29, 2006, for the life of the Schulz Local Agricultural and Forestal District. The Soil and Water Conservation Plan may be updated from time to time as determined necessary by the Northern Virginia Soil and Water Conservation District.
- (7) Those areas delineated by the Department of Planning and Zoning as Environmental Quality Corridors (EQCs) (see ATTACHMENT 1) shall be left undisturbed, with the exception of selective thinning operations performed to enhance existing vegetation, and the removal of dead, dying and diseased vegetation, in accordance with the Forest Management Plan, and as approved by the Area Forester. The boundaries of the EQC shall be the permanent limits of clearing and grading for the life of the Schulz Local Agricultural and Forestal District.
- (8) The establishment and continuation of this district depends upon the continuing legality and enforceability of each of the terms and conditions stated in this ordinance. This district may, at the discretion of the Board of Supervisors, be subject to reconsideration and may be terminated if warranted in the discretion of the Board of Supervisors upon determination by a court or any declaration or enactment by the General Assembly that renders any provisions illegal or unenforceable. The reconsideration/termination shall be in accordance with the procedures for the establishment, renewal, or amendment of an A & F District as outlined in Section 115 of the County Code and shall include an opportunity for the property owner(s) to demonstrate that the determination by a court or the declaration or enactment by the General Assembly does not apply to the conditions of this district.
- (9) The establishment and continuation of this district depends upon the implementation of each of the terms and conditions stated in this ordinance. This district may, at the sole discretion of the Board of Supervisors, be subject to reconsideration and may be terminated if such action is determined to be warranted by the Board of Supervisors upon determination that the terms and conditions stated in this ordinance are not being implemented. The reconsideration/termination shall be in accordance with the procedures for the establishment, renewal, or amendment of an A & F District as outlined in Section 115 of the County Code.

Fairfax, VA 22035-5509

Dear Mr Lynskey,

Enclosed find our application for renewal forms and payment for our land in Fairfax County Agriculture and Forestal District, copies of 2 maps zoned R-C which have been redlined.

There are no structures on this property and the land has been undisturbed for the last eight years. Acreage consist of 23.02 acres in 4 lots, no partial lots.

Access to public roads: Rondelay Lane to Henderson Road and/or September Lane to Crestridge to Henderson Rd.

Category A:

- 1) Total of 23 acres undisturbed
- 2) zoned RC
- 3) meets requirements
- 4) meets requirements
- 5 & 6) The parcel of land consists of 23 acres and is owned by George F & Susan M. Schulz
- 7 & 8) no land in the proposed district is in major agriculture use at this time
- 9) meets criteria
- 10) Land is undisturbed.

continued on page 2

page 2

Category B:

- 1) Land is undisturbed
- 2) Land is undisturbed, provides wildlife habitat and preserves the rural character of the area along with a scenic vista that improves the aesthetic quality of the county.
- 4) Land undisturbed.

Thank you,

George F. Schulz

MEMORANDUM

DATE: November 12, 2015

TO: Barbara C. Berlin, Director
Zoning Evaluation Division, DPZ

FROM: Denise M. James, Chief, Environment and Development Review
Planning Division, DPZ *DMJ*

SUBJECT: LAND USE ANALYSIS & ENVIRONMENTAL ASSESSMENT for:
AR 2006-SP-002
George and Susan Schulz

The memorandum, prepared by Mary Ann Welton, includes citations from the Comprehensive Plan that provide guidance for the evaluation of the above referenced application provides land use guidance and environmental policies for this property. The extent to which the proposed use, intensity and development plan are consistent with the land use and environmental guidance contained in the Comprehensive Plan, is noted.

DESCRIPTION OF THE APPLICATION

The application requests a renewal of an Agricultural and Forestal District for approximately twenty-three (23) acres which is located in the Ryans Dam watershed in southern Fairfax County. There are no structures on the property. The application proposes no agricultural or silvicultural use at this time. The entire 23-acre site is forested or undeveloped except for an approximately seven acre portion of the site which is turf. The forested area of the property will be maintained in conservation.

LOCATON AND CHARACTER

The subject property is located in the southern portion of the County in the Ryans Dam watershed and it is zoned R-C (Residential-Conservation). Generally, the subject property is surrounded by land which is zoned R-C and planned for residential use at .1-.2 dwelling unit per acre (du/ac) and private open space. Surrounding properties are either vacant, or developed with single-family detached homes. Fountainhead Regional Park is situated to the south.

Plan Map: Residential use at .1-.2 dwelling units acre (5-10 acre lots) and private open space

DEPARTMENT OF
**PLANNING
& ZONING**

The Fairfax County Comprehensive Plan, Area III Volume, 2013 Edition, Pohick Planning District, P5-Dominion Community Planning Sector, as amended through October 20, 2015 under the heading, "Land Use," beginning on page 55, the Plan states:

- “1. Protection of the Occoquan Reservoir water quality is the primary objective for this area. Land in the watershed of the Occoquan Reservoir should be planned for residential use within a density range of .1-.2 dwelling unit per acre. This conforms with findings in the Occoquan Basin Study and is commensurate with predominant densities and the well-established character of existing development in this sector. . . .
2. Nonresidential uses requiring special exception or special permit approval should be rigorously reviewed. In general, these uses should be located at the boundary of Low Density Residential Areas and Suburban Neighborhoods or where their impact on existing residences will be minimal. These uses should be granted only if the following conditions are met:
 - Access for the use is oriented to an arterial;
 - The use is of a size and scale that will not adversely impact the character of the area in which it is located; and
 - The use is designed to mitigate impacts on the water quality of the Occoquan Reservoir. . . .
3. Agricultural and forestal uses are alternatives to residential uses in Low Density Residential Areas. Such uses, depending upon the techniques used, can have positive impacts on water quality. Careful attention should be paid to insure that agricultural and forestal techniques are supportive of water quality goals for the Occoquan Reservoir watershed. . . .”

The Fairfax County Comprehensive Plan, Policy Plan, 2013 Edition, Environment section as amended through July 1, 2014, pages 7-10 states:

“Objective 2: Prevent and reduce pollution of surface and groundwater resources. Protect and restore the ecological integrity of streams in Fairfax County.

Policy a. Maintain a best management practices (BMP) program for Fairfax County and ensure that new development and redevelopment complies with the County’s best management practice (BMP) requirements. . . .

Policy c. Minimize the application of fertilizers, pesticides, and herbicides to lawns and landscaped areas through, among other tools, the development, implementation and monitoring of integrated pest, vegetation and nutrient

Policy a: **Identify, protect and restore an Environmental Quality Corridor system (EQC)... Lands may be included within the EQC system if they can achieve any of the following purposes:**

- **Habitat Quality:** The land has a desirable or scarce habitat type, or one could be readily restored, or the land hosts a species of special interest. This may include: habitat for species that have been identified by state or federal agencies as being rare, threatened or endangered; rare vegetative communities; unfragmented vegetated areas that are large enough to support interior forest dwelling species; and aquatic and wetland breeding habitats (i.e., seeps, vernal pools) that are connected to and in close proximity to other EQC areas.
- **Connectivity:** This segment of open space could become a part of a corridor to facilitate the movement of wildlife and/or conserve biodiversity. This may include natural corridors that are wide enough to facilitate wildlife movement and/or the transfer of genetic material between core habitat areas.
- **Hydrology/Stream Buffering/Stream Protection:** The land provides, or could provide, protection to one or more streams through: the provision of shade; vegetative stabilization of stream banks; moderation of sheet flow stormwater runoff velocities and volumes; trapping of pollutants from stormwater runoff and/or flood waters; flood control through temporary storage of flood waters and dissipation of stream energy; separation of potential pollution sources from streams; accommodation of stream channel evolution/migration; and protection of steeply sloping areas near streams from denudation.
- **Pollution Reduction Capabilities:** Preservation of this land would result in significant pollutant reductions. Water pollution, for example, may be reduced through: trapping of nutrients, sediment and/or other pollutants from runoff from adjacent areas; trapping of nutrients, sediment and/or other pollutants from flood waters; protection of highly erodible soils and/or steeply sloping areas from denudation; and/or separation of potential pollution sources from streams. Page 7

ENVIRONMENTAL ANALYSIS

Water Quality Protection

As previously noted, the subject property falls within the Ryans Dam watershed and an unnamed tributary which is Resource Protection Area (RPA), as well as Environmental Quality Corridor (EQC) traverses the site in a north south direction on the western portion of the property. Rolling topography and steeply sloping terrain characterize the entire site, and for that reason much more of the site EQC than is RPA. Intermittent streams with dense wooded buffers and steeply sloping banks characterize the eastern portion of the property.

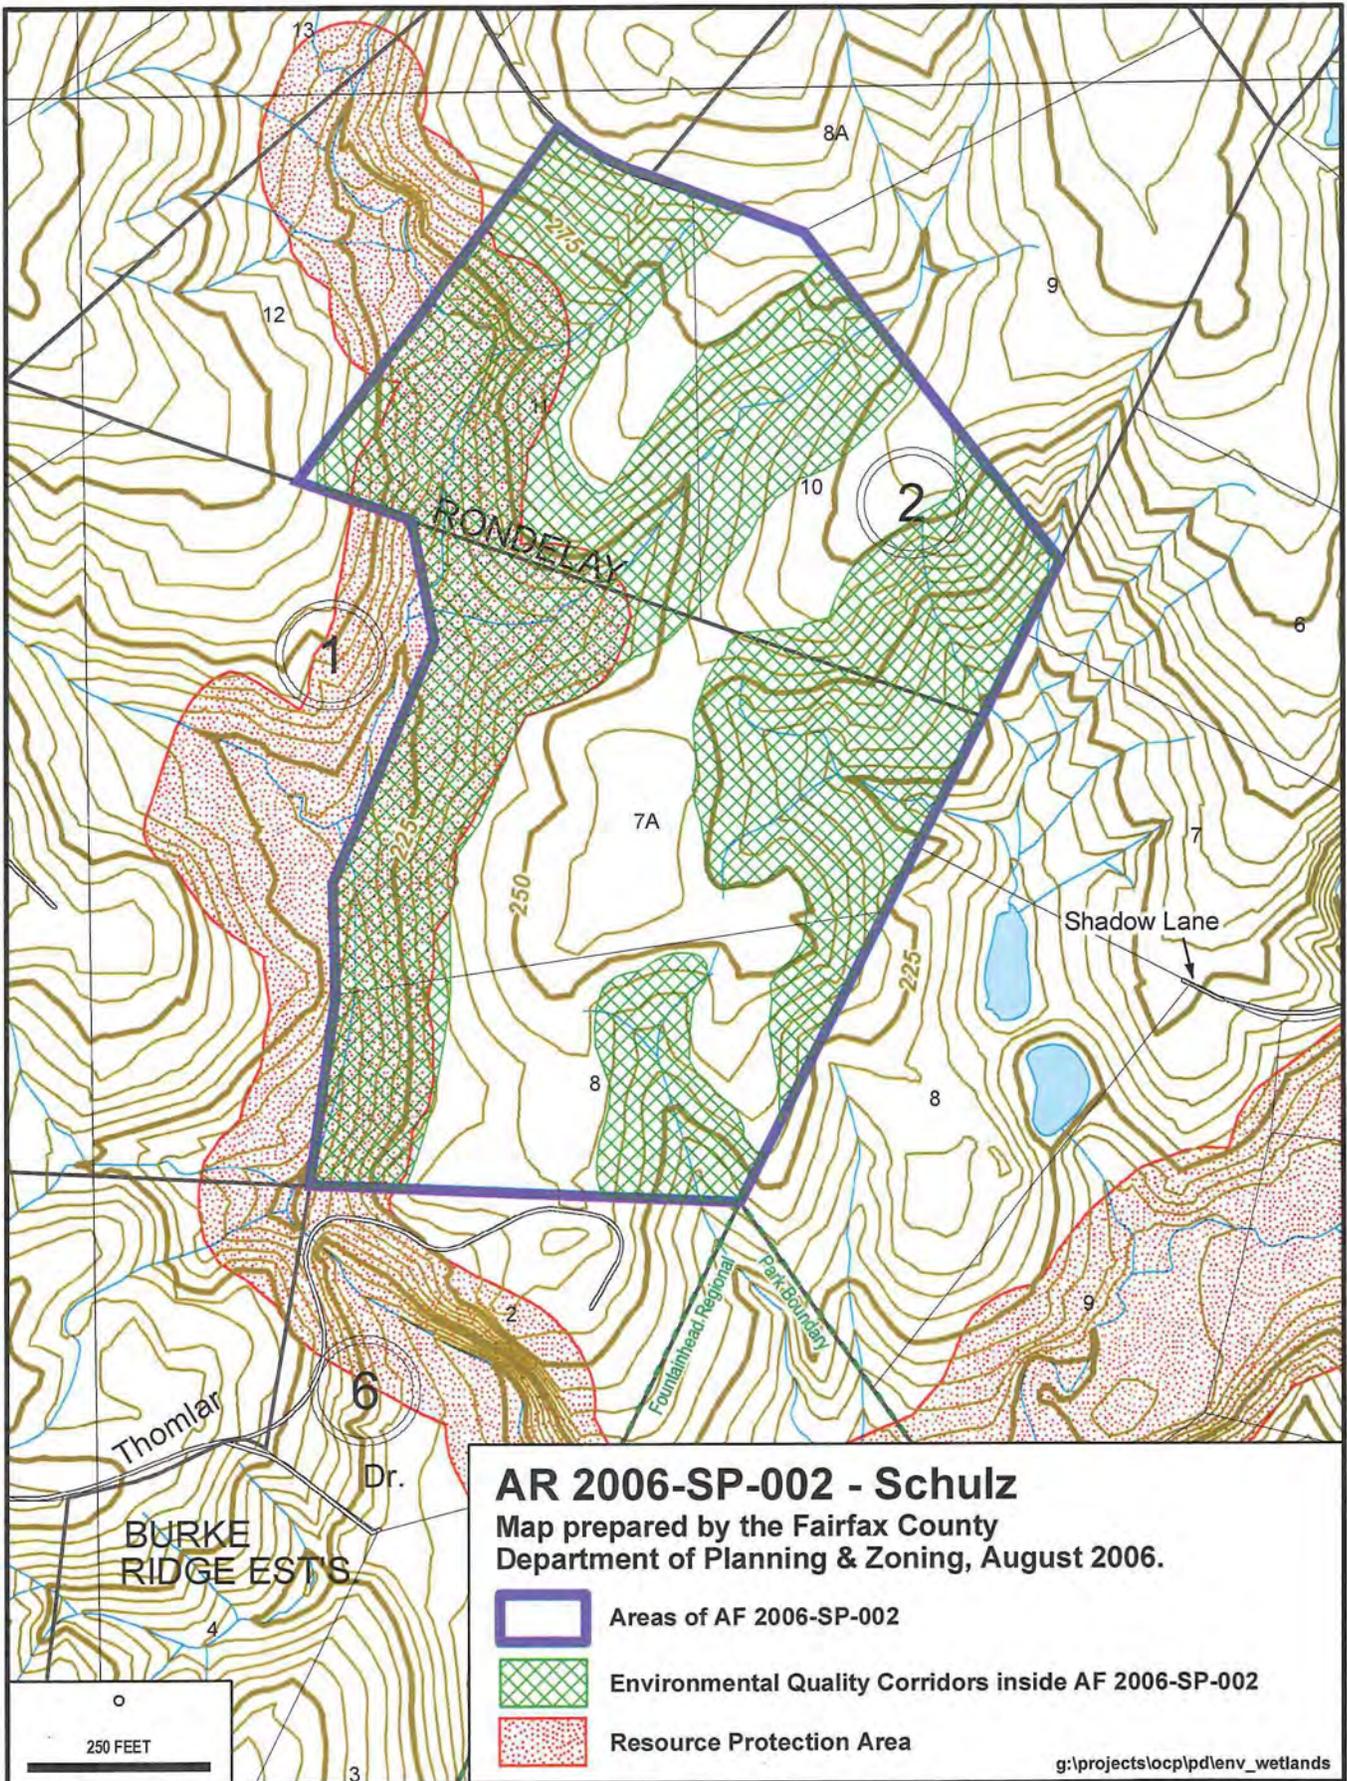

Agricultural Forestal Districts demonstrate conformance with the County's CBPO through the preparation of a Soil and Water Quality Plan (SWQP) performed in conjunction with the Northern Virginia Soil and Water Conservation District (NVSWCD). However, no agricultural activity has occurred in this district since it was established in 2006, nor is any current agricultural activity proposed to occur within the district for the renewal. Therefore, a current SWQP will not be prepared. Staff recommends that the property owners continue to maintain, preserve and enhance the RPA/EQC areas and particularly if future plans for the property change.

Silvicultural activities comply with CBPO through the development of a Forestry Management Plan as prescribed by the Virginia Department of Forestry's Best Management Practices Handbook for Forestry Operations and prepared in conjunction with the Virginia Department of Forestry (VDOT). Staff encourages the applicant to adhere to the guidance provided by VDOT in 2006 and reiterated in 2015. This guidance encourages the property owners to introduce ways to manage invasive plant species and to reduce deer browse on the property. Invasive species management increases the health of the forest on the property. Deer browse control will allow greater regeneration of certain deciduous tree species, particularly oak.

Renewal of this agricultural forestal district is in harmony with the environmental policies of the Comprehensive Plan which support preservation of water quality in the Occoquan Reservoir watershed.

Mr. George F. and Mrs. Susan Schulz
P.O. Box 226
The Plains VA 20198

Dear Mr. Schulz,

Thank you for the opportunity to walk your property.

As I expected the forest is much as it was when I visited the property in 2006. The main difference is that the pasture area is now heavily invaded by autumn olive and Virginia pine. I assume you have decided to let this part of the property revert to forest, which it is doing well. In the meantime it is providing good meadow habitat.

The recommendation I made in the plan I wrote in July 2006 still stand. Deer browse continues to be the main issue on the property and I again urge you to look into allowing hunting.

If you have any questions about managing this property or your property in The Plains, please don't hesitate to contact me.

Respectfully,

James McGlone
Urban Forest Conservationist

Subject: Schulz A&F No. AF 2006-SP-002

I have examined the property in question. The attached report satisfies criteria a(9) and it is over 20 contiguous acres in either agriculture or forested land satisfying criteria a(5) and a(6). By providing scenic vistas and protecting the head waters of two perennial streams it also satisfies criteria b(2) and b(4). I believe this property will make a good addition to Fairfax county's inventory of A&F Districts.

REPORT ON FORESTLANDS
OF
Mr. George F and Susan Schulz
P.O. Box 226
The Plains VA 20198

Location: The property is on the south side of the eastern terminus of Rondelay Lane. This property is a new A&F AF 2006-SP-002.

Examined by: James McGlone, Urban Forest Conservationist

Landowner's Objectives: To establish the property as an Agriculture and Forestal District; to enhance wildlife habitat; to maintain healthy trees for a quality forest; and the production of hay.

Introduction: This property is approximately 23.02 acres. About 15.7 acres are in forestland the rest is pasture. An unnamed perennial stream runs along the west side of the property and there are five ephemeral drainages on the property. The perennial stream is within a Chesapeake Bay Resource Protection Area.

Forest Type: Mixed hardwood forest with white oak, beech and tulip poplar dominating. Also present are pin/scarlet oak, chestnut oak, red maple, sycamore, Virginia pine, black gum and hickory. There are some cedar, blackjack oak, and green ash in and along the borders of the pasture.

Quality/Size: The timber quality of the property is good. The trees vary from pole size to 22" a good saw timber size. In general the area is not overstocked. The Virginia pine is in decline and dying out.

Wildlife Habitat: The acorns and hickory nuts provide good food for deer, wild turkey and squirrels. There are a few dead standing trees that provide food for woodpeckers and possible nesting cavities for birds and small mammals. The fallen pines also provide food for insect eaters and habitat for small mammals, amphibians, and reptiles.

Recreation / Aesthetics: this area is desirable for passive recreation such as walking, photography, bird and wildlife watching, hunting and the general observation of nature. There is recent evidence of horse back riding in both the woods and the pasture.

Recommendations: The understory is sparse and there is little regeneration of the canopy species. First year sprouts and the lack of regeneration suggest this can be related to the heavy deer browse and, in some areas, shade. Creating gaps in the canopy through the felling, harvesting or girdling of small groups of trees and allowing light onto the forest floor this may help with the regeneration process. One area of regeneration has occurred along the old road leading from the northeast corner of the pasture. A thick stand of Virginia pine established itself in an opening about 15 years ago and apparently served as a nurse crop that protected some tulip poplar seedlings. The pine is now dying off and will leave behind a dozen or so poplar saplings. The only other regeneration on the property is beech, which the deer seem to dislike.

Successful oak regeneration in the face of heavy deer browse has been achieved by the use of fencing and shelter woods. Shelter woods are a thinning practice that preserves select mature trees to provide a seed source, block wind and filter sunlight. Best results in oak regeneration have been achieved by fencing the stand five years before cutting. Presumably this allows the shade tolerant oak seedlings to get a head start on other plants that will attempt to fill the area when the canopy is opened.

The best solution to the regeneration problem is to reduce the deer browse pressure by reducing the number of deer. There is no evidence of current hunting on the property, but it should be allowed and encouraged.

There are organizations which cater to urban deer control on private property. Any property owner can bowhunt on their property or allow bowhunting on their property anywhere in Fairfax County. There is no minimum acreage required. Fairfax County has a longer bow season than any other county in Virginia. Ours begins the third Saturday in September and continues through the last Saturday in March. As far as safety goes, the only people who get hurt in bowhunting are the hunters themselves. The Fairfax County Animal Control office reports they have not been able to find an example of a non-participant being injured. Not just here, but anywhere. The Virginia Department of Game and Inland Fisheries (www.dgif.virginia.gov) can provide citizens with details on seasons and other requirements. Property owners do not need a hunting license to hunt on their own property. A deer management brochure produced by Fairfax County has been included with this report.

One issue associated with bowhunting is that permanent foot rungs are often driven into the trunk of the tree to allow access to the stands. This practice should be avoided. Driving foot rungs or anything into a tree provides an avenue for the entrance of disease or pests.

Resource protection areas: the stream that runs along the west side of the pasture has been designated a permanent stream by Fairfax County. A 100 foot wide strip on either side of this stream has been declared a Resource Protection Area (RPA) to protect water quality in the Chesapeake Bay. Most of the stream has a good, forested riparian buffer. In the northwest corner the pasture area comes right down to

the stream. Although not required, the functioning of the RPA could be improved by allowing at least a 35 foot buffer to regenerate naturally by establishing no-mow zone along this section of stream.

Invasive Species: In general invasive species are a problem through out the wood lands of Fairfax County. These non-native species are also a threat to forest regeneration as they compete with new seedlings for nutrients, water and growing space. They are also a threat to wildlife habitat, creating monocultures of plants often with little or no wildlife value. The invasive species noted on the property were Japanese stiltgrass, Japanese barberry and autumn olive. Stiltgrass can be controlled mechanically by pulling or raking, or with a highly dilute glyphosate herbicide. Barberry can also be controlled mechanically. Autumn olive can be cut and the stumps painted with glyphosate herbicide or killed with herbicide first and then cut (untreated stumps will resprout). I have included information on all three. Given the proposed management of this property, these invasive plants are a particular problem as they are all found in the pasture area which is proposed for hay production. Therefore control of these plants is strongly recommended especially in the pasture and immediately bordering areas.

Forest Health:

Forest diseases prevalent in the Northern Virginia area: Gypsy moth (oak trees), Woolly adelgid (hemlock trees), Anthracnose (dogwood and sycamore trees) and Emerald Ash Borer (Green ash trees). The best way to combat outbreaks of these diseases is to know your forest. Walk it frequently and note trees that are looking sickly. Different diseases/ infestations manifest themselves in different ways, some of the common characteristics to note are: severe defoliation, curling discolored leaves (look moldy), masses of insects present in larval forms (worms) or insect fecal matter (masses of black or white droppings. Small holes in the trunk of a tree generally indicate borers and require immediate attention. If you suspect your trees are being attacked by disease or pests contact a certified arborist, the Fairfax County Urban Forest Management Branch at 703-324-1770, the county extension agent at 703-324-5369 or this office at 703-324-1489.

Wildfire: Protection of this property from wildfire is essential. Wildfire destroys valuable timber and property. Should wildfire occur on this or adjacent property call 911 immediately to report it to the Fairfax County Fire and Rescue Department.

Field Border (386)

Existing field border will be maintained on the field's perimeter indicated as Chesapeake Bay RPA on the plan map. A 100-foot average width is required, especially if the open area is to be converted and used for hay production.

Tract	Field	Planned Amount	Month	Year	Applied Amount	Date
No Tract	Forest	900 ft	8	2006	900 ft	8/24/2006
No Tract	Grass	900 ft	8	2006	900 ft	8/24/2006
	Total:	1800 ft			1800 ft	

Forest Stand Improvement (666)

Trees that are un-merchantable and undesirable vegetation will be removed or deadened according to specifications from Department of Forestry.

Tract	Field	Planned Amount	Month	Year	Applied Amount	Date
No Tract	Forest	15 ac	8	2006		
	Total:	15 ac				

Nutrient Management (590)

(D1) Nutrient Management: Nutrients will be applied based on soil test results for the expected crop yield. All sources of nutrients will be credited. The rate, timing and method of application are shown in the attached Nutrient Management Plan. This plan was developed and signed by a Nutrient Management Planner certified by the Commonwealth of Virginia's Nutrient Management Program.

Tract	Field	Planned Amount	Month	Year	Applied Amount	Date
No Tract	Grass	8 ac	8	2006		
	Total:	8 ac				

Pasture and Hay Planting (512)

A mixture of grasses and/or legumes will be established. Specifications will be provided upon request.

Tract	Field	Planned Amount	Month	Year	Applied Amount	Date
No Tract	Grass	8 ac	8	2006		
	Total:	8 ac				

Pest Management (595)

Pest management will be carried out to control agricultural pest infestations (weeds, insects, diseases) according to specific recommendation alternatives provided on the attached sheets from the Virginia Cooperative Extension Service.

Tract	Field	Planned Amount	Month	Year	Applied Amount	Date
No Tract	Forest	15 ac	8	2006		
No Tract	Grass	8 ac	8	2006		
	Total:	23 ac				

Upland Wildlife Habitat Management (645)

(D2) Upland Wildlife Habitat Management: Wildlife practices will be applied to improve habitat for upland wildlife species. Periodic management is required to retain grasses, trees and the area in an optimal condition for animal species. Specifications, as well as an operation and maintenance plan, will be provided by the Va. Department of Forestry.

Tract	Field	Planned Amount	Month	Year	Applied Amount	Date
No Tract	Forest	15 ac	8	2006		
No Tract	Grass	8 ac	8	2006

MEMORANDUM

DATE: 21 August 2015

TO: Michael Lynskey, ASLA, Zoning Evaluation Staff Coordinator

FROM: Linda Cornish Blank, Historic Preservation Planner *LCB*

SUBJECT: AR 2006-SP-002; George F. Schulz & Susan M. Schulz: tax id #96-3 ((1)) 7Z, 8Z; ((2)) 10Z, 11Z; Heritage Resource comment

- **Planning Location:** Fairfax County Comprehensive Plan, 2013 Edition, Area III, Pohick Planning District, P5 Dominion Planning Sector, Amended through 3-24-2015, Character, page 56 :

“Character

Extensive heritage resource survey work was completed in this planning sector. These have identified significant archaeological resources spanning the full 12,000 years of human activity in Fairfax County. The survey work is intended to be updated as part of a countywide heritage resources survey. The low density of this sector means that significant undisturbed heritage resources can be expected anywhere in the sector.”

Policy Plan: Fairfax County Comprehensive Plan, 2013 Edition, Policy Plan, Amended through 4-29-2014, Heritage Resources, page 4:

Objective 3: Protect significant heritage resources from degradation, or damage and destruction by public or private action.

Policy g. Promote the use of open space/conservation easements to preserve heritage resources. Encourage property owners to place easements on their properties, working with the county, a local non-profit land trust and/or a state or national entity authorized to hold easements for the purpose of heritage resource preservation.

Background: The subject parcels are not included within the boundaries of a Fairfax County Historic Overlay District, are not listed in the Fairfax County Inventory of Historic Sites or the National Register of Historic Places or documented in the historic structures survey file.

Heritage Resource memo

AR 2006-SP-002

Page 2

Findings:

1. The property owner is to be commended for dedication to stewardship of this property as open space.
2. The Plan text cited above states that this sector has had extensive heritage resource survey work completed. With this work being completed almost 30 years ago, it was intended to be updated as part of a countywide heritage resources survey. The low density of this sector means that significant undisturbed heritage resources can be expected anywhere in the sector. The Cultural Resource Management and Protection Branch (CRMPB) of the Park Authority may be able to provide the property owner with information as to whether these parcels have high potential for significant resources if the property owner has not had an opportunity to obtain this information.
3. If the property owner is interested in contacting CRMPB and finds that the property contains undisturbed and significant resources, they may want to consider investigating placing an easement on the property for protection of the significant resources and cultural landscape in perpetuity.

FAIRFAX COUNTY, VIRGINIA**MEMORANDUM**

DATE: September 1, 2015

TO: Members, Planning Commission
Members, Board of Supervisors

FROM: Agricultural and Forestal Districts Advisory Committee

SUBJECT: Recommendations on the Schulz Local Agricultural and Forestal District;
Application AR 2006-SP-002

The Agricultural and Forestal Districts Advisory Committee met on September 1, 2015 to review the application to renew the Schulz Local Agricultural and Forestal District (Application AR 2006-SP-002). The Committee found the following:

- The Schulz Local Agricultural and Forestal District meets the minimum district size contained in Section 115-3-2;
- The Schulz Local Agricultural and Forestal District conforms with the Policy and Purpose of Chapter 115 of the Fairfax County Code;
- The Schulz Local Agricultural and Forestal District fulfills all of the applicable criteria in Group A, and fulfills two (2) of the criteria in Group B, found in Chapter 115 of the Fairfax County Code.

The Agricultural and Forestal Districts Advisory Committee unanimously recommends that Appendix F of the Fairfax County Code be amended to renew the Schulz Local Agricultural and Forestal District. The Advisory Committee further recommends that the establishment of this district be subject to the Ordinance Provisions which are contained in Appendix 1 of the staff report.

Selected provisions from the Fairfax County Code, Chapter 115. For the full, unabridged, code please visit the website of the Fairfax County Planning and Zoning Department or view a copy in person at the Fairfax County Planning and Zoning office.

ARTICLE 1.

In General.

Section 115-1-1. Short title.

This chapter may be referred to as to "Local Agricultural and Forestal Districts Ordinance" of the County of Fairfax and is to become effective June 30, 1983. (13-83415.)

Section 115-1-2. Policy and purpose.

It is the policy of Fairfax County to conserve and protect and to encourage the development and improvement of its important agricultural and forest lands for the production of food and other agricultural and forest products. It is also Fairfax County policy to conserve and protect agricultural and forest lands as valued natural and ecological resources which provide essential open spaces for clean air sheds, watershed protection, wildlife habitat, aesthetic quality, and other environmental purposes. It is the purpose of this Chapter to provide a means by which Fairfax County may protect and enhance agricultural and forest lands of local significance as a viable segment of the Fairfax County economy and as an important economic and environmental resource. (13-83-115.)

Section 115-1-3. Authority.

The authority for the establishment of a program of local agricultural and forestal districts in Fairfax County is derived from Title 15.1, Chapter 36.1 of the *Code of Virginia*, entitled the "Local Agricultural and Forestal Districts Act." (13-83-115.)

ARTICLE 3.

District Applications.

Section 115-3-2. Minimum district size, district boundaries.

An agricultural and forestal district shall be comprised of no less than twenty (20) acres, all of which shall be located in Fairfax County. (13-83-115; 21-95-115.)

Section 115-4-8. Provisions of local district ordinances.

Any district ordinance adopted by the Board in order to establish or renew an agricultural and forestal district shall include the following provisions:

- a) That no parcel included within the district shall be developed to a more intensive use than its existing use at the time of adoption of the ordinance establishing such district for eight (8) years from the date of adoption of such ordinance. This provision shall not be construed to restrict expansion of or improvements to the agricultural or forestal use of the land or to prevent the construction of one (1) additional house within the district, where otherwise permitted by applicable law, for either an owner, a member of an owner's family, or for a tenant who farms the land;
- b) That no parcel added to an already established district shall be developed to a more intensive use than its existing use at the time of addition to the district for eight (8) years from the date of adopting of the original district ordinance;
- c) That land used in agricultural and forestal production within the agricultural and forestal district of local significance shall automatically qualify for an agricultural or forestal value assessment on such land pursuant to Chapter 4, Article 19 of the Fairfax County Code and to *Code of Virginia*, Section 58-769.4 et seq., if the requirements for such assessment contained therein are satisfied;
- d) That the district shall be reviewed by the Board of Supervisors at the end of the eight-year period and that it may by ordinance renew the district or a modification thereof for another eight-year period. No owner of land shall be included in any agricultural and forestal district of local significance without such owner's written approval; and
- e) Any other provisions to the mutual agreement of the landowner and the Board of Supervisors that further the purpose of this Chapter. (21-95-115.)

Section 115-4-9. Renewal of local districts.

- a) Local districts may be renewed by the adoption by the Board of Supervisors of a district ordinance as described in Section 115-4-8.
- b) No land may be included in a renewed district without the written approval of all the owners of such land. Notice of such approval shall be given by the completion, signing and submission of an application as provided in Article 8 of this Chapter. Such application should be submitted at least six (6) months before the expiration date of the existing district which is to be considered for renewal, but in no case shall it be submitted later than sixty (60) days before such expiration date.

- c) When a renewal application has been submitted and accepted, the procedures outlined in Article 4 of this Chapter shall be used to review such application.
- d) If no renewal application is submitted and accepted by the deadline required in Section 115-4-9(b), the district shall not be renewed; however, owners formerly in a district may reapply pursuant to Section 115-3-1 at any time.
- e) If a renewal application signed by all owners of parcels proposed for inclusion in a renewed district is submitted and accepted by the deadline required in Section 115-4-9(b), but the Board of Supervisors fails to act on the application by the expiration date of the district, such district, including only those parcels proposed for renewal, shall continue; and all provisions of the district ordinance and this Chapter shall apply until such time as the Board of Supervisors makes its decision whether or not to renew the district as proposed.
- f) If a district is not renewed, the lands that were formerly in the district shall no longer be restricted in use as required by the district ordinance, shall no longer qualify for an agricultural or forestal value assessment, nor shall other provisions of the district ordinance any longer apply to such lands. (21-95-115.)

ARTICLE 5.

Criteria for Establishment, Modification, Renewal or Termination of a District.

Section 115-5-1. Criteria.

The following criteria shall be used as a guide in recommendations and decisions on whether to establish, modify, renew, continue or terminate local agricultural and forestal districts:

Criteria Group A: All the following criteria should be met by all proposed districts:

- 1) All district acreage should be currently devoted to agricultural use or forestal use or should be undeveloped and suitable for such uses, except that a reasonable amount of residential or other use, related to the agricultural or forestal use and generally not more than five (5) acres per district, may be included.
- 2) All lands in the district should be zoned to the R-P, R-C, R-A or R-E District.
- 3) The district should be consistent with the Comprehensive Plan. The following land uses identified in the Plan are appropriate for a district: .1-.2 dwelling unit per acre, .2 dwelling unit per acre, .2-.5 dwelling unit per acre, .5-1 dwelling unit per

acre, Private Recreation, Private Open Space, Public Park, Agriculture, Environmental Quality Corridor. Lands not planned as such may be considered for a district if they meet at least three (3) of Criteria Group B.

- 4) A majority of the surrounding land within one-quarter mile of the district should be planned according to the Comprehensive Plan for uses identified in (a)(3), above. Exceptions may be made for lands located at the edge of a planned growth area or which meet at least three (3) of the criteria of Criteria Group B, if no conflicts with surrounding uses, existing and planned, are evident or likely.
- 5) All farms to be included in a district should be at least twenty (20) acres in size. A farm may include several parcels of land; however, all parcels must have the same owner or else owners must be members of the same immediate family or a family trust or family corporation. A farm must include at least fifteen (15) acres of land in agricultural use. A farm may include noncontiguous parcels within one (1) mile of the core acreage (the largest parcel or group of contiguous parcels or the parcel where the farm buildings are located) as long the noncontiguous parcels are predominately agricultural in use and as long as the total acreage of each individual farm (including contiguous and noncontiguous lands) is at least twenty (20) acres.
- 6) All other properties not included in a farm as defined in (a)(5), that is, forested and partially forested properties, and properties with less than fifteen (15) acres in agricultural use, should be at least twenty (20) acres in size. These properties may contain several parcels; but all parcels must be contiguous, and all must have the same owner, or else owners must be members of the same family or a family trust or family corporation.
- 7) Approximately two-thirds of the land in agricultural use in the district should contain Class I, II, III or IV soils as defined by the USDA Soil Conservation Service. Districts having more than one-third of the land in agricultural use containing Classes V--VIII soils may be considered if such lands have been improved and managed to reduce soil erosion, maintain soil nutrients, and reduce nonpoint source pollution.
- 8) Agricultural land in the district should be used in a planned program of soil management, soil conservation and pollution control practices which is intended to reduce or prevent soil erosion, maintain soil nutrients, control practices which is intended to reduce or prevent soil erosion, maintain soil nutrients, control brush, woody growth and noxious weeds on crop land, hay land and pasture land, and reduce nonpoint source pollution. Exceptions to this criterion may be made only for those agricultural lands which upon initial application for the establishment of a district are not used in such a program but for which a

conservation plan is being prepared or has been requested from the Northern Virginia Soil and Water Conservation District.

- 9) Forest land and undeveloped land in the district should be kept in an undisturbed state, or if periodically harvested or experiencing erosion problems, shall be used in a planned program of soil management, soil conservation and pollution control practices which is intended to reduce or prevent soil erosion, maintain soil nutrients and reduce nonpoint source pollution. Exceptions to this criterion may be made only for those lands which upon initial application for the establishment of a district are not used in such a program but for which a conservation plan is being prepared or has been requested from the Northern Virginia Soil and Water Conservation District or the Virginia Division of Forestry.
- 10) There should be evidence of a history of investment in farm or forest improvements or other commitments to continuing agricultural or forestal use in the district. In particular, districts with no history of investments in farm or forest improvements must evidence a firm commitment to agricultural or forest use for at least the life of the district.

Criteria Group B: In addition to meeting all of Criteria Group A, all properties in the district should meet as well at least two (2) of the following criteria:

- 1) Farm and/or forest products have been regularly produced and sold from the property during the last five (5) years.
- 2) The land provides scenic vistas, improves the aesthetic quality of views from County roads or contributes to maintaining the existing rural character of an area.
- 3) The property contains an historically and/or archaeologically significant site which would be preserved in conjunction with the establishment of a district. A site that is listed on the Federal Registry of Historic Places, the State Registry of Historic Places and/or the County Inventory of Historic Places will be considered historically and/or archaeologically significant. A property which contains a site that is considered to be archaeologically significant by the County Archaeologist, or is located in an area with a high potential for archaeological sites, provided that the property owner has agreed to permit the County Archaeologist access to the site, may also be considered historically and/or archaeologically significant.
- 4) Farming or forestry operations practice unique or particularly effective water pollution control measures (BMP's).
- 5) The land is zoned R-A, R-P or R-C.
- 6) The land is entirely in a permanent open space easement. (13-83-115; 21-95-115.)

APPLICABLE SECTIONS OF THE CODE OF VIRGINIA,
TITLE 58.1, CHAPTER 32 – REAL PROPERTY TAX
(current as of September 12, 2013 –
refer to online version of the Code for up-to-date information)

§ 58.1-3230. Special classifications of real estate established and defined.

For the purposes of this article the following special classifications of real estate are established and defined:

"Real estate devoted to agricultural use" shall mean real estate devoted to the bona fide production for sale of plants and animals useful to man under uniform standards prescribed by the Commissioner of Agriculture and Consumer Services in accordance with the Administrative Process Act (§ [2.2-4000](#) et seq.), or devoted to and meeting the requirements and qualifications for payments or other compensation pursuant to a soil conservation program under an agreement with an agency of the federal government. Prior, discontinued use of property shall not be considered in determining its current use. Real estate upon which recreational activities are conducted for a profit or otherwise shall be considered real estate devoted to agricultural use as long as the recreational activities conducted on such real estate do not change the character of the real estate so that it does not meet the uniform standards prescribed by the Commissioner. Real property that has been designated as devoted to agricultural use shall not lose such designation solely because a portion of the property is being used for a different purpose pursuant to a special use permit or otherwise allowed by zoning, provided that the property, excluding such portion, otherwise meets all the requirements for such designation. The portion of the property being used for a different purpose pursuant to a special use permit or otherwise allowed by zoning shall be deemed a separate piece of property from the remaining property for purposes of assessment. The presence of utility lines on real property shall not be considered in determining whether the property, including the portion where the utility lines are located, is devoted to agricultural use. In determining whether real property is devoted to agricultural use, zoning designations and special use permits for the property shall not be the sole considerations.

"Real estate devoted to horticultural use" shall mean real estate devoted to the bona fide production for sale of fruits of all kinds, including grapes, nuts, and berries; vegetables; and nursery and floral products under uniform standards prescribed by the Commissioner of Agriculture and Consumer Services in accordance with the Administrative Process Act (§ [2.2-4000](#) et seq.), or real estate devoted to and meeting the requirements and qualifications for payments or other compensation pursuant to a soil conservation program under an agreement with an agency of the federal government. Prior, discontinued use of property shall not be considered in determining its current use. Real estate upon which recreational activities are conducted for profit or otherwise shall be considered real estate devoted to horticultural use as long as the recreational activities conducted on such real estate do not change the character of the real estate so that it does not meet the uniform standards prescribed by the Commissioner. Real property that has been designated as devoted to horticultural use shall not lose such designation solely because a portion of the property is being used for a different purpose pursuant to a special use permit or otherwise allowed by zoning, provided that the property, excluding such portion, otherwise meets all the requirements for such designation. The portion of the property being used for a different purpose pursuant to a special use permit or otherwise allowed by zoning shall be deemed a separate piece of property from the remaining property for purposes of assessment. The presence of utility lines on real property shall not be considered in determining whether the property, including the portion where the utility lines are located, is devoted to horticultural use. In determining whether real property is devoted to horticultural use, zoning designations and special use permits for the property shall not be the sole considerations.

"Real estate devoted to forest use" shall mean land, including the standing timber and trees thereon, devoted to tree growth in such quantity and so spaced and maintained as to constitute a forest area under standards prescribed by the State Forester pursuant to the authority set out in § [58.1-3240](#) and in accordance with the Administrative Process Act (§ [2.2-4000](#) et seq.). Prior, discontinued use of property shall not be considered in determining its current use. Real estate upon which recreational activities are conducted for profit, or otherwise, shall still be considered real estate devoted to forest use as long as the recreational activities conducted on such real estate do not change the character of the real estate so that it no longer constitutes a forest area under standards prescribed by the State Forester pursuant to the authority set out in § [58.1-3240](#). Real property that has been designated as devoted to forest use shall not lose such designation solely because a portion of the property is being used for a different purpose pursuant to a special use permit or is otherwise allowed by zoning, provided that the property, excluding such portion, otherwise meets all the requirements for such designation. The portion of the property being used for a different purpose pursuant to a special use permit or otherwise allowed by zoning shall be deemed a separate piece of property from the remaining property for purposes of assessment. The presence of utility lines on real property shall not be considered in determining whether the property, including the portion where the utility lines are located, is devoted to forest use. In determining whether real property is devoted to forest use, zoning designations and special use permits for the property shall not be the sole considerations.

"Real estate devoted to open-space use" shall mean real estate used as, or preserved for, (i) park or recreational purposes, including public or private golf courses, (ii) conservation of land or other natural resources, (iii) floodways, (iv) wetlands as defined in § [58.1-3666](#), (v) riparian buffers as defined in § [58.1-3666](#), (vi) historic or scenic purposes, or (vii) assisting in the shaping of the character, direction, and timing of community development or for the public interest and consistent with the local land-use plan under uniform standards prescribed by the Director of the Department of Conservation and Recreation pursuant to the authority set out in § [58.1-3240](#) and in accordance with the Administrative Process Act (§ [2.2-4000](#) et seq.) and the local ordinance. Prior, discontinued use of property shall not be considered in determining its current use. Real property that has been designated as devoted to open-space use shall not lose such designation solely because a portion of the property is being used for a different purpose pursuant to a special use permit or is otherwise allowed by zoning, provided that the property, excluding such portion, otherwise meets all the requirements for such designation. The portion of the property being used for a different purpose pursuant to a special use permit or otherwise allowed by zoning shall be deemed a separate piece of property from the remaining property for purposes of assessment. The presence of utility lines on real property shall not be considered in determining whether the property, including the portion where the utility lines are located, is devoted to open-space use. In determining whether real property is devoted to open-space use, zoning designations and special use permits for the property shall not be the sole considerations.

(Code 1950, § 58-769.5; 1971, Ex. Sess., c. 172; 1973, c. 209; 1984, cc. 675, 739, 750; 1987, c. 550; 1988, c. 695; 1989, cc. 648, 656; 1996, c. [573](#); 1998, c. [516](#); 2006, c. [817](#); 2009, c. [800](#); 2012, c. [653](#).)

§ 58.1-3231. Authority of counties, cities and towns to adopt ordinances; general reassessment following adoption of ordinance.

Any county, city or town which has adopted a land-use plan may adopt an ordinance to provide for the use value assessment and taxation, in accord with the provisions of this article, of real estate classified in § [58.1-3230](#). The local governing body pursuant to § [58.1-3237.1](#) may provide in the ordinance that property located in specified zoning districts shall not be eligible for special assessment as provided in this article. The provisions of this article shall not be applicable in any county, city or town for any year unless such an ordinance is adopted by the governing body thereof not later than June 30 of the year previous to the year when such taxes are first assessed and levied under this article, or December 31 of such year for localities which have adopted a fiscal year assessment date of July 1, under Chapter 30 (§ [58.1-3000](#) et seq.) of this subtitle. The provisions of this article also shall not apply to the assessment of any real estate assessable pursuant to law by a central state agency.

Land used in agricultural and forestal production within an agricultural district, a forestal district or an agricultural and forestal district that has been established under Chapter 43 (§ [15.2-4300](#) et seq.) of Title 15.2, shall be eligible for the use value assessment and taxation whether or not a local land-use plan or local ordinance pursuant to this section has been adopted.

Such ordinance shall provide for the assessment and taxation in accordance with the provisions of this article of any or all of the four classes of real estate set forth in § [58.1-3230](#). If the uniform standards prescribed by the Commissioner of Agriculture and Consumer Services pursuant to § [58.1-3230](#) require real estate to have been used for a particular purpose for a minimum length of time before qualifying as real estate devoted to agricultural use or horticultural use, then such ordinance may waive such prior use requirement for real estate devoted to the production of agricultural and horticultural crops that require more than two years from initial planting until commercially feasible harvesting.

In addition to but not to replace any other requirements of a land-use plan such ordinance may provide that the special assessment and taxation be established on a sliding scale which establishes a lower assessment for property held for longer periods of time within the classes of real estate set forth in § [58.1-3230](#). Any such sliding scale shall be set forth in the ordinance.

Notwithstanding any other provision of law, the governing body of any county, city or town shall be authorized to direct a general reassessment of real estate in the year following adoption of an ordinance pursuant to this article.

(Code 1950, § 58-769.6; 1971, Ex. Sess., c. 172; 1973, c. 209; 1974, c. 34; 1975, c. 233; 1977, c. 681; 1978, c. 250; 1984, cc. 92, 675; 1987, c. 628; 1988, c. 695; 1999, c. [1026](#); 2000, c. [410](#); 2001, c. [705](#).)

§ 58.1-3232. Authority of city to provide for assessment and taxation of real estate in newly annexed area.

The council of any city may adopt an ordinance to provide for the assessment and taxation of only the real estate in an area newly annexed to such city in accord with the provisions of this article. All of the provisions of this article shall be applicable to such ordinance, except that if the county from which such area was annexed has in operation an ordinance hereunder, the ordinance of such city may be adopted at any time prior to April 1 of the year for which such ordinance will be effective, and applications from landowners may be received at any time within thirty days of the adoption of the ordinance in such year. If such ordinance is adopted after the date specified in § [58.1-3231](#), the ranges of suggested values made by the State Land Evaluation Advisory Council for the county from which such area was annexed are to be considered the value recommendations for such city. An ordinance adopted under the authority of this section shall be effective only for the tax year immediately following annexation.

(Code 1950, § 58-769.6:1; 1976, c. 58; 1984, c. 675.)

§ 58.1-3233. Determinations to be made by local officers before assessment of real estate under ordinance.

Prior to the assessment of any parcel of real estate under any ordinance adopted pursuant to this article, the local assessing officer shall:

1. Determine that the real estate meets the criteria set forth in § [58.1-3230](#) and the standards prescribed thereunder to qualify for one of the classifications set forth therein, and he may request an opinion from the Director of the Department of Conservation and Recreation, the State Forester or the Commissioner of Agriculture and Consumer Services;
2. Determine further that real estate devoted solely to (i) agricultural or horticultural use consists of a minimum of five acres; except that for real estate used for purposes of engaging in aquaculture as defined in § [3.2-2600](#) or for the purposes of raising specialty crops as defined by local ordinance, the governing body may by ordinance prescribe that these uses consist of a minimum acreage of less than five acres, (ii) forest use consists of a minimum of 20 acres and (iii) open-space use consists of a minimum of five acres or such greater minimum acreage as may be prescribed by local ordinance; except that for real estate adjacent to a scenic river, a scenic highway, a Virginia Byway or public property in the Virginia Outdoors Plan or for any real estate in any city, county or town having a density of population greater than 5,000 per square mile, for any real estate in any county operating under the urban county executive form of government, or the unincorporated Town of Yorktown chartered in 1691, the governing body may by ordinance prescribe that land devoted to open-space uses consist of a minimum of one quarter of an acre.

The minimum acreage requirements for special classifications of real estate shall be determined by adding together the total area of contiguous real estate excluding recorded subdivision lots recorded after July 1, 1983, titled in the same ownership. *However, for purposes of adding together such total area of contiguous real estate, any noncontiguous parcel of real property included in an agricultural, forestal, or an agricultural and forestal district of local significance pursuant to subsection B of § [15.2-4405](#) shall be deemed to be contiguous to any other real property that is located in such district.* For purposes of this section, properties separated only by a public right-of-way are considered contiguous; and

3. Determine further that real estate devoted to open-space use is (i) within an agricultural, a forestal, or an agricultural and forestal district entered into pursuant to Chapter 43 (§ [15.2-4300](#) et seq.) of Title 15.2, or (ii) subject to a recorded perpetual easement that is held by a public body, and promotes the open-space use classification, as defined in § [58.1-3230](#), or (iii) subject to a recorded commitment entered into by the landowners with the local governing body, or its authorized designee, not to change the use to a nonqualifying use for a time period stated in the commitment of not less than four years nor more than ten years. Such commitment shall be subject to uniform standards prescribed by the Director of the Department of Conservation and Recreation pursuant to the authority set out in § [58.1-3240](#). Such commitment shall run with the land for the applicable period, and may be terminated in the manner provided in § 15.1-1513 for withdrawal of land from an agricultural, a forestal or an agricultural and forestal district.

(Code 1950, § 58-769.7; 1971, Ex. Sess., c. 172; 1973, c. 209; 1980, c. 75; 1984, cc. 675, 739, 750; 1987, c. 550; 1988, cc. 462, 695; 1989, c. 656; 1990, c. 695; 1991, cc. 69, 490; 2002, c. [475](#); 2003, c. [356](#); 2010, c. [653](#).)

§ 58.1-3234. Application by property owners for assessment, etc., under ordinance; continuation of assessment, etc.

Property owners must submit an application for taxation on the basis of a use assessment to the local assessing officer:

1. At least sixty days preceding the tax year for which such taxation is sought; or

2. In any year in which a general reassessment is being made, the property owner may submit such application until thirty days have elapsed after his notice of increase in assessment is mailed in accordance with § [58.1-3330](#), or sixty days preceding the tax year, whichever is later; or
3. In any locality which has adopted a fiscal tax year under Chapter 30 (§ [58.1-3000](#) et seq.) of this Subtitle III, but continues to assess as of January 1, such application must be submitted for any year at least sixty days preceding the effective date of the assessment for such year.

The governing body, by ordinance, may permit applications to be filed within no more than sixty days after the filing deadline specified herein, upon the payment of a late filing fee to be established by the governing body. An individual who is owner of an undivided interest in a parcel may apply on behalf of himself and the other owners of such parcel upon submitting an affidavit that such other owners are minors or cannot be located. An application shall be submitted whenever the use or acreage of such land previously approved changes; however, no application fee may be required when a change in acreage occurs solely as a result of a conveyance necessitated by governmental action or condemnation of a portion of any land previously approved for taxation on the basis of use assessment. The governing body of any county, city or town may, however, require any such property owner to revalidate annually with such locality, on or before the date on which the last installment of property tax prior to the effective date of the assessment is due, on forms prepared by the locality, any applications previously approved. Each locality which has adopted an ordinance hereunder may provide for the imposition of a revalidation fee every sixth year. Such revalidation fee shall not, however, exceed the application fee currently charged by the locality. The governing body may also provide for late filing of revalidation forms on or before the effective date of the assessment, on payment of a late filing fee. Forms shall be prepared by the State Tax Commissioner and supplied to the locality for use of the applicants and applications shall be submitted on such forms. An application fee may be required to accompany all such applications.

In the event of a material misstatement of facts in the application or a material change in such facts prior to the date of assessment, such application for taxation based on use assessment granted thereunder shall be void and the tax for such year extended on the basis of value determined under § [58.1-3236](#) D. Except as provided by local ordinance, no application for assessment based on use shall be accepted or approved if, at the time the application is filed, the tax on the land affected is delinquent. Upon the payment of all delinquent taxes, including penalties and interest, the application shall be treated in accordance with the provisions of this section.

Continuation of valuation, assessment and taxation under an ordinance adopted pursuant to this article shall depend on continuance of the real estate in a qualifying use, continued payment of taxes as referred to in § [58.1-3235](#), and compliance with the other requirements of this article and the ordinance and not upon continuance in the same owner of title to the land.

In the event that the locality provides for a sliding scale under an ordinance, the property owner and the locality shall execute a written agreement which sets forth the period of time that the property shall remain within the classes of real estate set forth in § [58.1-3230](#). The term of the written agreement shall be for a period not exceeding twenty years, and the instrument shall be recorded in the office of the clerk of the circuit court for the locality in which the subject property is located.

(Code 1950, § 58-769.8; 1971, Ex. Sess., c. 172; 1973, cc. 93, 209; 1974, c. 33; 1976, c. 478; 1977, c. 213; 1978, cc. 250, 644, 645; 1979, cc. 180, 632; 1980, cc. 493, 508; 1982, c. 624; 1984, cc. 92, 675; 1988, c. 695; 1993, c. 102; 1999, c. [1026](#); 2001, c. [50](#).)

§ 58.1-3235. Removal of parcels from program if taxes delinquent.

If on April 1 of any year the taxes for any prior year on any parcel of real property which has a special assessment as provided for in this article are delinquent, the appropriate county, city or town treasurer shall forthwith send notice of that fact and the general provisions of this section to the property owner by first-class mail. If, after the notice has been sent, such delinquent taxes remain unpaid on June 1, the treasurer shall notify the appropriate commissioner of the revenue who shall remove such parcel from the land use program. Such removal shall become effective for the current tax year.

(Code 1950, § 58-769.8:1; 1980, c. 508; 1984, c. 675; 1994, c. [199](#).)

§ 58.1-3236. Valuation of real estate under ordinance.

A. In valuing real estate for purposes of taxation by any county, city or town which has adopted an ordinance pursuant to this article, the commissioner of the revenue or duly appointed assessor shall consider only those indicia of value which

such real estate has for agricultural, horticultural, forest or open space use, and real estate taxes for such jurisdiction shall be extended upon the value so determined. In addition to use of his personal knowledge, judgment and experience as to the value of real estate in agricultural, horticultural, forest or open space use, he shall, in arriving at the value of such land, consider available evidence of agricultural, horticultural, forest or open space capability, and the recommendations of value of such real estate as made by the State Land Evaluation Advisory Council.

B. In determining the total area of real estate actively devoted to agricultural, horticultural, forest or open space use there shall be included the area of all real estate under barns, sheds, silos, cribs, greenhouses, public recreation facilities and like structures, lakes, dams, ponds, streams, irrigation ditches and like facilities; but real estate under, and such additional real estate as may be actually used in connection with, the farmhouse or home or any other structure not related to such special use, shall be excluded in determining such total area.

C. All structures which are located on real estate in agricultural, horticultural, forest or open space use and the farmhouse or home or any other structure not related to such special use and the real estate on which the farmhouse or home or such other structure is located, together with the additional real estate used in connection therewith, shall be valued, assessed and taxed by the same standards, methods and procedures as other taxable structures and other real estate in the locality.

D. In addition, such real estate in agricultural, horticultural, forest or open space use shall be evaluated on the basis of fair market value as applied to other real estate in the taxing jurisdiction, and land book records shall be maintained to show both the use value and the fair market value of such real estate.

(Code 1950, § 58-769.9; 1971, Ex. Sess., c. 172; 1984, c. 675.)

§ 58.1-3237. Change in use or zoning of real estate assessed under ordinance; roll-back taxes.

A. When real estate qualifies for assessment and taxation on the basis of use under an ordinance adopted pursuant to this article, and the use by which it qualified changes to a nonqualifying use, or the zoning of the real estate is changed to a more intensive use at the request of the owner or his agent, it shall be subject to additional taxes, hereinafter referred to as roll-back taxes. Such additional taxes shall only be assessed against that portion of such real estate which no longer qualifies for assessment and taxation on the basis of use or zoning. Liability for roll-back taxes shall attach and be paid to the treasurer only if the amount of tax due exceeds ten dollars.

B. In localities which have not adopted a sliding scale ordinance, the roll-back tax shall be equal to the sum of the deferred tax for each of the five most recent complete tax years including simple interest on such roll-back taxes at a rate set by the governing body, no greater than the rate applicable to delinquent taxes in such locality pursuant to § [58.1-3916](#) for each of the tax years. The deferred tax for each year shall be equal to the difference between the tax levied and the tax that would have been levied based on the fair market value assessment of the real estate for that year. In addition the taxes for the current year shall be extended on the basis of fair market value which may be accomplished by means of a supplemental assessment based upon the difference between the use value and the fair market value.

C. In localities which have adopted a sliding scale ordinance, the roll-back tax shall be equal to the sum of the deferred tax from the effective date of the written agreement including simple interest on such roll-back taxes at a rate set by the governing body, which shall not be greater than the rate applicable to delinquent taxes in such locality pursuant to § [58.1-3916](#), for each of the tax years. The deferred tax for each year shall be equal to the difference between the tax levied and the tax that would have been levied based on the fair market value assessment of the real estate for that year and based on the highest tax rate applicable to the real estate for that year, had it not been subject to special assessment. In addition the taxes for the current year shall be extended on the basis of fair market value which may be accomplished by means of a supplemental assessment based upon the difference between the use value and the fair market value and based on the highest tax rate applicable to the real estate for that year.

D. Liability to the roll-back taxes shall attach when a change in use occurs, or a change in zoning of the real estate to a more intensive use at the request of the owner or his agent occurs. Liability to the roll-back taxes shall not attach when a change in ownership of the title takes place if the new owner does not rezone the real estate to a more intensive use and continues the real estate in the use for which it is classified under the conditions prescribed in this article and in the ordinance. The owner of any real estate which has been zoned to more intensive use at the request of the owner or his agent as provided in subsection E, or otherwise subject to or liable for roll-back taxes, shall, within sixty days following such change in use or zoning, report such change to the commissioner of the revenue or other assessing officer on such forms as may be prescribed. The commissioner shall forthwith determine and assess the roll-back tax, which shall be assessed against and paid by the owner of the property at the time the change in use which no longer qualifies occurs, or at the time of the zoning of the real estate to a more intensive use at the request of the owner or his agent occurs, and shall be paid to

the treasurer within thirty days of the assessment. If the amount due is not paid by the due date, the treasurer shall impose a penalty and interest on the amount of the roll-back tax, including interest for prior years. Such penalty and interest shall be imposed in accordance with §§ 58.1-3915 and 58.1-3916.

E. Real property zoned to a more intensive use, at the request of the owner or his agent, shall be subject to and liable for the roll-back tax at the time such zoning is changed. The roll-back tax shall be levied and collected from the owner of the real estate in accordance with subsection D. Real property zoned to a more intensive use before July 1, 1988, at the request of the owner or his agent, shall be subject to and liable for the roll-back tax at the time the qualifying use is changed to a nonqualifying use. Real property zoned to a more intensive use at the request of the owner or his agent after July 1, 1988, shall be subject to and liable for the roll-back tax at the time of such zoning. Said roll-back tax, plus interest calculated in accordance with subsection B, shall be levied and collected at the time such property was rezoned. For property rezoned after July 1, 1988, but before July 1, 1992, no penalties or interest, except as provided in subsection B, shall be assessed, provided the said roll-back tax is paid on or before October 1, 1992. No real property rezoned to a more intensive use at the request of the owner or his agent shall be eligible for taxation and assessment under this article, provided that these provisions shall not be applicable to any rezoning which is required for the establishment, continuation, or expansion of a qualifying use. If the property is subsequently rezoned to agricultural, horticultural, or open space, it shall be eligible for consideration for assessment and taxation under this article only after three years have passed since the rezoning was effective.

However, the owner of any real property that qualified for assessment and taxation on the basis of use, and whose real property was rezoned to a more intensive use at the owner's request prior to 1980, may be eligible for taxation and assessment under this article provided the owner applies for rezoning to agricultural, horticultural, open-space or forest use. The real property shall be eligible for assessment and taxation on the basis of the qualifying use for the tax year following the effective date of the rezoning. If any such real property is subsequently rezoned to a more intensive use at the owner's request, within five years from the date the property was initially rezoned to a qualifying use under this section, the owner shall be liable for roll-back taxes when the property is rezoned to a more intensive use. Additionally, the owner shall be subject to a penalty equal to fifty percent of the roll-back taxes due as determined under subsection B of this section.

The roll-back taxes and penalty that otherwise would be imposed under this subsection shall not become due at the time the zoning is changed if the locality has enacted an ordinance pursuant to subsection G.

F. If real estate annexed by a city and granted use value assessment and taxation becomes subject to roll-back taxes, and such real estate likewise has been granted use value assessment and taxation by the county prior to annexation, the city shall collect roll-back taxes and interest for the maximum period allowed under this section and shall return to the county a share of such taxes and interest proportionate to the amount of such period, if any, for which the real estate was situated in the county.

G. A locality may enact an ordinance providing that (i) when a change in zoning of real estate to a more intensive use at the request of the owner or his agent occurs, roll-back taxes shall not become due solely because the change in zoning is for specific more intensive uses set forth in the ordinance, (ii) such real estate may remain eligible for use value assessment and taxation, in accordance with the provisions of this article, as long as the use by which it qualified does not change to a nonqualifying use, and (iii) no roll-back tax shall become due with respect to the real estate until such time as the use by which it qualified changes to a nonqualifying use.

(Code 1950, § 58-769.10; 1971, Ex. Sess., c. 172; 1973, c. 209; 1974, c. 34; 1977, c. 323; 1979, c. 179; 1980, c. 363; 1984, cc. 92, 222, 675, 676, 681; 1985, c. 478; 1988, cc. 422, 695; 1990, c. 841; 1992, Sp. Sess., c. 3; 1998, c. [274](#); 1999, c. [1026](#); 2013, c. [269](#).)

§ 58.1-3237.1. Authority of counties to enact additional provisions concerning zoning classifications.

A. Albemarle County, Arlington County, Augusta County, James City County, Loudoun County, and Rockingham County may include the following additional provisions in any ordinance enacted under the authority of this article:

1. The governing body may exclude land lying in planned development, industrial or commercial zoning districts from assessment under the provisions of this article. As applied to zoning districts, this provision applies only to zoning districts established prior to January 1, 1981.

2. The governing body may provide that when the zoning of the property taxed under the provisions of this article is changed to allow a more intensive nonagricultural use at the request of the owner or his agent, such property shall not be eligible for assessment and taxation under this article. This shall not apply, however, to property that is zoned agricultural and is subsequently rezoned to a more intensive use that is complementary to agricultural use, provided such property continues to be owned by the same owner who owned the property prior to rezoning and continues to operate the

agricultural activity on the property. Notwithstanding any other provision of law, such property shall be subject to and liable for roll-back taxes at the time the zoning is changed to allow any use more intensive than the use for which it qualifies for special assessment. The roll-back tax, plus interest, shall be calculated, levied and collected from the owner of the real estate in accordance with § [58.1-3237](#) at the time the property is rezoned.

B. Goochland County may include additional provisions specified in subdivisions A 1 and 2 in any ordinance enacted under the authority of this article, but only in service districts created after July 1, 2013, pursuant to Article 1 (§ [15.2-2400](#) et seq.) of Chapter 24 of Title 15.2.

(1987, c. 628; 1992, Sp. Sess., c. 3; 1993, c. 584; 2007, c. [813](#); 2011, c. [12](#); 2013, c. [677](#).)

§ 58.1-3238. Failure to report change in use; misstatements in applications.

Any person failing to report properly any change in use of property for which an application for use value taxation had been filed shall be liable for all such taxes, in such amounts and at such times as if he had complied herewith and assessments had been properly made, and he shall be liable for such penalties and interest thereon as may be provided by ordinance. Any person making a material misstatement of fact in any such application shall be liable for all such taxes, in such amounts and at such times as if such property had been assessed on the basis of fair market value as applied to other real estate in the taxing jurisdiction, together with interest and penalties thereon. If such material misstatement was made with the intent to defraud the locality, he shall be further assessed with an additional penalty of 100 percent of such unpaid taxes.

For purposes of this section and § [58.1-3234](#), incorrect information on the following subjects will be considered material misstatements of fact:

1. The number and identities of the known owners of the property at the time of application;
2. The actual use of the property.

The intentional misrepresentation of the number of acres in the parcel or the number of acres to be taxed according to use shall also be considered a material misstatement of fact for the purposes of this section and § 58.1-3234.

(Code 1950, § 58-769.10:1; 1971, Ex. Sess., c. 172; 1982, c. 624; 1984, cc. 675, 681.)

§ 58.1-3239. State Land Evaluation Advisory Committee continued as State Land Evaluation Advisory Council; membership; duties; ordinances to be filed with Council.

The State Land Evaluation Advisory Committee is continued and shall hereafter be known as the State Land Evaluation Advisory Council. The Advisory Council shall be composed of the Tax Commissioner, the dean of the College of Agriculture of Virginia Polytechnic Institute and State University, the State Forester, the Commissioner of Agriculture and Consumer Services and the Director of the Department of Conservation and Recreation.

The Advisory Council shall determine and publish a range of suggested values for each of the several soil conservation service land capability classifications for agricultural, horticultural, forest and open space uses in the various areas of the Commonwealth as needed to carry out the provisions of this article.

On or before October 1 of each year the Advisory Council shall submit recommended ranges of suggested values to be effective the following January 1 or July 1 in the case of localities with fiscal year assessment under the authority of Chapter 30 of this subtitle, within each locality which has adopted an ordinance pursuant to the provisions of this article based on the productive earning power of real estate devoted to agricultural, horticultural, forest and open space uses and make such recommended ranges available to the commissioner of the revenue or duly appointed assessor in each such locality.

The Advisory Council, in determining such ranges of values, shall base the determination on productive earning power to be determined by capitalization of warranted cash rents or by the capitalization of incomes of like real estate in the locality or a reasonable area of the locality.

Any locality adopting an ordinance pursuant to this article shall forthwith file a copy thereof with the Advisory Council.

(Code 1950, § 58-769.11; 1971, Ex. Sess., c. 172; 1976, c. 55; 1979, c. 152; 1984, cc. 675, 739, 750; 1985, c. 448; 1987, c. 550; 1989, c. 656.)

§ 58.1-3240. Duties of Director of the Department of Conservation and Recreation, the State Forester and the Commissioner of Agriculture and Consumer Services; remedy of person aggrieved by action or nonaction of Director, State Forester or Commissioner.

The Director of the Department of Conservation and Recreation, the State Forester, and the Commissioner of Agriculture and Consumer Services shall provide, after holding public hearings, to the commissioner of the revenue or duly appointed assessor of each locality adopting an ordinance pursuant to this article, a statement of the standards referred to in § [58.1-3230](#) and subdivision 1 of § [58.1-3233](#), which shall be applied uniformly throughout the Commonwealth in determining whether real estate is devoted to agricultural use, horticultural use, forest use or open-space use for the purposes of this article and the procedure to be followed by such official to obtain the opinion referenced in subdivision 1 of § [58.1-3233](#). Upon the refusal of the Commissioner of Agriculture and Consumer Services, the State Forester or the Director of the Department of Conservation and Recreation to issue an opinion or in the event of an unfavorable opinion which does not comport with standards set forth in the statements filed pursuant to this section, the party aggrieved may seek relief in the circuit court of the county or city wherein the real estate in question is located, and in the event that the court finds in his favor, it may issue an order which shall serve in lieu of an opinion for the purposes of this article.

(Code 1950, § 58-769.12; 1971, Ex. Sess., c. 172; 1973, c. 209; 1984, cc. 675, 739, 750; 1987, c. 550; 1989, c. 656.)

§ 58.1-3241. Separation of part of real estate assessed under ordinance; contiguous real estate located in more than one taxing locality.

A. Separation or split-off of lots, pieces or parcels of land from the real estate which is being valued, assessed and taxed under an ordinance adopted pursuant to this article, either by conveyance or other action of the owner of such real estate, shall subject the real estate so separated to liability for the roll-back taxes applicable thereto, but shall not impair the right of each subdivided parcel of such real estate to qualify for such valuation, assessment and taxation in any and all future years, provided it meets the minimum acreage requirements and such other conditions of this article as may be applicable. Such separation or split-off of lots shall not impair the right of the remaining real estate to continuance of such valuation, assessment and taxation without liability for roll-back taxes, provided it meets the minimum acreage requirements and other applicable conditions of this article.

B. 1. No subdivision, separation, or split-off of property which results in parcels that meet the minimum acreage requirements of this article, and that are used for one or more of the purposes set forth in § [58.1-3230](#), shall be subject to the provisions of subsection A.

2. The application of roll-back taxes pursuant to subsection A shall, at the option of the locality, also not apply to a subdivision, separation, or split-off of property made pursuant to a subdivision ordinance adopted under § [15.2-2244](#) that results in parcels that do not meet the minimum acreage requirements of this article, provided that title to the parcels subdivided, separated, or split-off is held in the name of an immediate family member for at least the first 60 months immediately following the subdivision, separation, or split-off.

For purposes of this subdivision, an "immediate family member" means any person defined as such in the locality's subdivision ordinance adopted pursuant to § [15.2-2244](#).

C. Where contiguous real estate in agricultural, horticultural, forest or open-space use in one ownership is located in more than one taxing locality, compliance with the minimum acreage shall be determined on the basis of the total area of such real estate and not the area which is located in the particular taxing locality.

(Code 1950, § 58-769.13; 1971, Ex. Sess., c. 172; 1978, c. 385; 1984, c. 675; 1988, c. 695; 2006, c. [221](#).)

§ 58.1-3242. Taking of real estate assessed under ordinance by right of eminent domain.

The taking of real estate which is being valued, assessed and taxed under an ordinance adopted pursuant to this article by right of eminent domain shall not subject the real estate so taken to the roll-back taxes herein imposed.

(Code 1950, § 58-769.14; 1971, Ex. Sess., c. 172; 1984, c. 675.)

§ 58.1-3243. Application of other provisions of Title 58.1.

The provisions of this title applicable to local levies and real estate assessment and taxation shall be applicable to assessments and taxation hereunder mutatis mutandis including, without limitation, provisions relating to tax liens, boards of equalization and the correction of erroneous assessments and for such purposes the roll-back taxes shall be considered to be deferred real estate taxes.

(Code 1950, § 58-769.15; 1971, Ex. Sess., c. 172; 1980, c. 241; 1983, c. 304; 1984, c. 675.)

§ 58.1-3244. Article not in conflict with requirements for preparation and use of true values.

Nothing in this article shall be construed to be in conflict with the requirements for preparation and use of true values where prescribed by the General Assembly for use in any fund distribution formula.

(Code 1950, § 58-769.15:1; 1971, Ex. Sess., c. 172; 1984, c. 675.)

GLOSSARY

This Glossary is provided to assist the public in understanding the staff evaluation and analysis of development proposals. It should not be construed as representing legal definitions. Refer to the Fairfax County Zoning Ordinance, Comprehensive Plan or Public Facilities Manual for additional information.

ABANDONMENT: Refers to road or street abandonment, an action taken by the Board of Supervisors, usually through the public hearing process, to abolish the public's right-of-passage over a road or road right-of way. Upon abandonment, the right-of-way automatically reverts to the underlying fee owners. If the fee to the owner is unknown, Virginia law presumes that fee to the roadbed rests with the adjacent property owners if there is no evidence to the contrary.

ACCESSORY DWELLING UNIT (OR APARTMENT): A secondary dwelling unit established in conjunction with and clearly subordinate to a single family detached dwelling unit. An accessory dwelling unit may be allowed if a special permit is granted by the Board of Zoning Appeals (BZA). Refer to Sect. 8-918 of the Zoning Ordinance.

AFFORDABLE DWELLING UNIT (ADU) DEVELOPMENT: Residential development to assist in the provision of affordable housing for persons of low and moderate income in accordance with the affordable dwelling unit program and in accordance with Zoning Ordinance regulations. Residential development which provides affordable dwelling units may result in a density bonus (see below) permitting the construction of additional housing units. See Part 8 of Article 2 of the Zoning Ordinance.

AGRICULTURAL AND FORESTAL DISTRICTS: A land use classification created under Chapter 114 or 115 of the Fairfax County Code for the purpose of qualifying landowners who wish to retain their property for agricultural or forestal use for use/value taxation pursuant to Chapter 58 of the Fairfax County Code.

BARRIER: A wall, fence, earthen berm, or plant materials which may be used to provide a physical separation between land uses. Refer to Article 13 of the Zoning Ordinance for specific barrier requirements.

BEST MANAGEMENT PRACTICES (BMPs): Stormwater management techniques or land use practices that are determined to be the most effective, practicable means of preventing and/or reducing the amount of pollution generated by nonpoint sources in order to improve water quality.

BUFFER: Graduated mix of land uses, building heights or intensities designed to mitigate potential conflicts between different types or intensities of land uses; may also provide for a transition between uses. A landscaped buffer may be an area of open, undeveloped land and may include a combination of fences, walls, berms, open space and/or landscape plantings. A buffer is not necessarily coincident with transitional screening.

CHESAPEAKE BAY PRESERVATION ORDINANCE: Regulations which the State has mandated must be adopted to protect the Chesapeake Bay and its tributaries. These regulations must be incorporated into the comprehensive plans, zoning ordinances and subdivision ordinances of the affected localities. Refer to Chesapeake Bay Preservation Act, Va. Code Section 10.1-2100 et seq and VR 173-02-01, Chesapeake Bay Preservation Area Designation and Management Regulations.

CLUSTER DEVELOPMENT: Residential development in which the lots are clustered on a portion of a site so that significant environmental/historical/cultural resources may be preserved or recreational amenities provided. While smaller lot sizes are permitted in a cluster subdivision to preserve open space, the overall density cannot exceed that permitted by the applicable zoning district. See Sect. 2-421 and Sect. 9-615 of the Zoning Ordinance.

COUNTY 2232 REVIEW PROCESS: A public hearing process pursuant to Sect. 15.2-2232 (Formerly Sect. 15.1-456) of the Virginia Code which is used to determine if a proposed public facility not shown on the adopted Comprehensive Plan is in substantial accord with the plan. Specifically, this process is used to determine if the general or approximate location, character and extent of a proposed facility is in substantial accord with the Plan.

dBA: The momentary magnitude of sound weighted to approximate the sensitivity of the human ear to certain frequencies; the dBA value describes a sound at a given instant, a maximum sound level or a steady state value. See also Ldn.

DENSITY: Number of dwelling units (du) divided by the gross acreage (ac) of a site being developed in residential use; or, the number of dwelling units per acre (du/ac) except in the PRC District when density refers to the number of persons per acre.

DENSITY BONUS: An increase in the density otherwise allowed in a given zoning district which may be granted under specific provisions of the Zoning Ordinance when a developer provides excess open space, recreation facilities, or affordable dwelling units (ADUs), etc.

DEVELOPMENT CONDITIONS: Terms or conditions imposed on a development by the Board of Supervisors (BOS) or the Board of Zoning Appeals (BZA) in connection with approval of a special exception, special permit or variance application or rezoning application in a "P" district. Conditions may be imposed to mitigate adverse impacts associated with a development as well as secure compliance with the Zoning Ordinance and/or conformance with the Comprehensive Plan. For example, development conditions may regulate hours of operation, number of employees, height of buildings, and intensity of development.

DEVELOPMENT PLAN: A graphic representation which depicts the nature and character of the development proposed for a specific land area: information such as topography, location and size of proposed structures, location of streets trails, utilities, and storm drainage are generally included on a development plan. A development plan is a submission requirement for rezoning to the PRC District. A **GENERALIZED DEVELOPMENT PLAN (GDP)** is a submission requirement for a rezoning application for all conventional zoning districts other than a P District. A development plan submitted in connection with a special exception (SE) or special permit (SP) is generally referred to as an SE or SP plat. A **CONCEPTUAL DEVELOPMENT PLAN (CDP)** is a submission requirement when filing a rezoning application for a P District other than the PRC District; a CDP characterizes in a general way the planned development of the site. A **FINAL DEVELOPMENT PLAN (FDP)** is a submission requirement following the approval of a conceptual development plan and rezoning application for a P District other than the PRC District; an FDP further details the planned development of the site. See Article 16 of the Zoning Ordinance.

EASEMENT: A right to or interest in property owned by another for a specific and limited purpose. Examples: access easement, utility easement, construction easement, etc. Easements may be for public or private purposes.

ENVIRONMENTAL QUALITY CORRIDORS (EQCs): An open space system designed to link and preserve natural resource areas, provide passive recreation and protect wildlife habitat. The system includes stream valleys, steep slopes and wetlands. For a complete definition of EQCs, refer to the Environmental section of the Policy Plan for Fairfax County contained in Vol. 1 of the Comprehensive Plan.

ERODIBLE SOILS: Soils that wash away easily, especially under conditions where stormwater runoff is inadequately controlled. Silt and sediment are washed into nearby streams, thereby degrading water quality.

FLOODPLAIN: Those land areas in and adjacent to streams and watercourses subject to periodic flooding; usually associated with environmental quality corridors. The 100 year floodplain drains 70 acres or more of land and has a one percent chance of flood occurrence in any given year.

FLOOR AREA RATIO (FAR): An expression of the amount of development intensity (typically, non-residential uses) on a specific parcel of land. FAR is determined by dividing the total square footage of gross floor area of buildings on a site by the total square footage of the site itself.

FUNCTIONAL CLASSIFICATION: A system for classifying roads in terms of the character of service that individual facilities are providing or are intended to provide, ranging from travel mobility to land access. Roadway system functional classification elements include Freeways or Expressways which are limited access highways, Other Principal (or Major) Arterials, Minor Arterials, Collector Streets, and Local Streets. Principal arterials are designed to accommodate travel; access to adjacent properties is discouraged. Minor arterials are designed to serve both through traffic and local trips. Collector roads and streets link local streets and properties with the arterial network. Local streets provide access to adjacent properties.

GEOTECHNICAL REVIEW: An engineering study of the geology and soils of a site which is submitted to determine the suitability of a site for development and recommends construction techniques designed to overcome development on problem soils, e.g., marine clay soils.

HYDROCARBON RUNOFF: Petroleum products, such as motor oil, gasoline or transmission fluid deposited by motor vehicles which are carried into the local storm sewer system with the stormwater runoff, and ultimately, into receiving streams; a major source of non-point source pollution. An oil-grit separator is a common hydrocarbon runoff reduction method.

IMPERVIOUS SURFACE: Any land area covered by buildings or paved with a hard surface such that water cannot seep through the surface into the ground.

INFILL: Development on vacant or underutilized sites within an area which is already mostly developed in an established development pattern or neighborhood.

INTENSITY: The magnitude of development usually measured in such terms as density, floor area ratio, building height, percentage of impervious surface, traffic generation, etc. Intensity is also based on a comparison of the development proposal against environmental constraints or other conditions which determine the carrying capacity of a specific land area to accommodate development without adverse impacts.

Ldn: Day night average sound level. It is the twenty-four hour average sound level expressed in A-weighted decibels; the measurement assigns a "penalty" to night time noise to account for night time sensitivity. Ldn represents the total noise environment which varies over time and correlates with the effects of noise on the public health, safety and welfare.

LEVEL OF SERVICE (LOS): An estimate of the effectiveness of a roadway to carry traffic, usually under anticipated peak traffic conditions. Level of Service efficiency is generally characterized by the letters A through F, with LOS-A describing free flow traffic conditions and LOS-F describing jammed or grid-lock conditions.

MARINE CLAY SOILS: Soils that occur in widespread areas of the County generally east of Interstate 95. Because of the abundance of shrink-swell clays in these soils, they tend to be highly unstable. Many areas of slope failure are evident on natural slopes. Construction on these soils may initiate or accelerate slope movement or slope failure. The shrink-swell soils can cause movement in structures, even in areas of flat topography, from dry to wet seasons resulting in cracked foundations, etc. Also known as slippage soils.

OPEN SPACE: That portion of a site which generally is not covered by buildings, streets, or parking areas. Open space is intended to provide light and air; open space may function as a buffer between land uses or for scenic, environmental, or recreational purposes.

OPEN SPACE EASEMENT: An easement usually granted to the Board of Supervisors which preserves a tract of land in open space for some public benefit in perpetuity or for a specified period of time. Open space easements may be accepted by the Board of Supervisors, upon request of the land owner, after evaluation under criteria established by the Board. See Open Space Land Act, Code of Virginia, Sections 10.1-1700, et seq.

P DISTRICT: A "P" district refers to land that is planned and/or developed as a Planned Development Housing (PDH) District, a Planned Development Commercial (PDC) District or a Planned Residential Community (PRC) District. The PDH, PDC and PRC Zoning Districts are established to encourage innovative and creative design for land development; to provide ample and efficient use of open space; to promote a balance in the mix of land uses, housing types, and intensity of development; and to allow maximum flexibility in order to achieve excellence in physical, social and economic planning and development of a site. Refer to Articles 6 and 16 of the Zoning Ordinance.

PROFFER: A written condition, which, when offered voluntarily by a property owner and accepted by the Board of Supervisors in a rezoning action, becomes a legally binding condition which is in addition to the zoning district regulations applicable to a specific property. Proffers are submitted and signed by an owner prior to the Board of Supervisors public hearing on a rezoning application and run with the land. Once accepted by the Board, proffers may be modified only by a proffered condition amendment (PCA) application or other zoning action of the Board and the hearing process required for a rezoning application applies. See Sect. 15.2-2303 (formerly 15.1-491) of the Code of Virginia.

PUBLIC FACILITIES MANUAL (PFM): A technical text approved by the Board of Supervisors containing guidelines and standards which govern the design and construction of site improvements incorporating applicable Federal, State and County Codes, specific standards of the Virginia Department of Transportation and the County's Department of Public Works and Environmental Services.

RESOURCE MANAGEMENT AREA (RMA): That component of the Chesapeake Bay Preservation Area comprised of lands that, if improperly used or developed, have a potential for causing significant water quality degradation or for diminishing the functional value of the Resource Protection Area. See Fairfax County Code, Ch. 118, Chesapeake Bay Preservation Ordinance.

RESOURCE PROTECTION AREA (RPA): That component of the Chesapeake Bay Preservation Area comprised of lands at or near the shoreline or water's edge that have an intrinsic water quality value due to the ecological and biological processes they perform or are sensitive to impacts which may result in significant degradation of the quality of state waters. In their natural condition, these lands provide for the removal, reduction or assimilation of sediments from runoff entering the Bay and its tributaries, and minimize the adverse effects of human activities on state waters and aquatic resources. New development is generally discouraged in an RPA. See Fairfax County Code, Ch. 118, Chesapeake Bay Preservation Ordinance.

SITE PLAN: A detailed engineering plan, to scale, depicting the development of a parcel of land and containing all information required by Article 17 of the Zoning Ordinance. Generally, submission of a site plan to DPWES for review and approval is required for all residential, commercial and industrial development except for development of single family detached dwellings. The site plan is required to assure that development complies with the Zoning Ordinance.

SPECIAL EXCEPTION (SE) / SPECIAL PERMIT (SP): Uses, which by their nature, can have an undue impact upon or can be incompatible with other land uses and therefore need a site specific review. After review, such uses may be allowed to locate within given designated zoning districts if appropriate and only under special controls, limitations, and regulations. A special exception is subject to public hearings by the Planning Commission and Board of Supervisors with approval by the Board of Supervisors; a special permit requires a public hearing and approval by the Board of Zoning Appeals. Unlike proffers which are voluntary, the Board of Supervisors or BZA may impose reasonable conditions to assure, for example, compatibility and safety. See Article 8, Special Permits and Article 9, Special Exceptions, of the Zoning Ordinance.

STORMWATER MANAGEMENT: Engineering practices that are incorporated into the design of a development in order to mitigate or abate adverse water quantity and water quality impacts resulting from development. Stormwater management systems are designed to slow down or retain runoff to re-create, as nearly as possible, the pre-development flow conditions.

SUBDIVISION PLAT: The engineering plan for a subdivision of land submitted to DPWES for review and approved pursuant to Chapter 101 of the County Code.

TRANSPORTATION DEMAND MANAGEMENT (TDM): Actions taken to reduce single occupant vehicle automobile trips or actions taken to manage or reduce overall transportation demand in a particular area.

TRANSPORTATION SYSTEM MANAGEMENT (TSM) PROGRAMS: This term is used to describe a full spectrum of actions that may be applied to improve the overall efficiency of the transportation network. TSM programs usually consist of low-cost alternatives to major capital expenditures, and may include parking management measures, ridesharing programs, flexible or staggered work hours, transit promotion or operational improvements to the existing roadway system. TSM includes Transportation Demand Management (TDM) measures as well as H.O.V. use and other strategies associated with the operation of the street and transit systems.

URBAN DESIGN: An aspect of urban or suburban planning that focuses on creating a desirable environment in which to live, work and play. A well-designed urban or suburban environment demonstrates the four generally accepted principles of design: clearly identifiable function for the area; easily understood order; distinctive identity; and visual appeal.

VACATION: Refers to vacation of street or road as an action taken by the Board of Supervisors in order to abolish the public's right-of-passage over a road or road right-of-way dedicated by a plat of subdivision. Upon vacation, title to the road right-of-way transfers by operation of law to the owner(s) of the adjacent properties within the subdivision from whence the road/road right-of-way originated.

VARIANCE: An application to the Board of Zoning Appeals which seeks relief from a specific zoning regulation such as lot width, building height, or minimum yard requirements, among others. A variance may only be granted by the Board of Zoning Appeals through the public hearing process and upon a finding by the BZA that the variance application meets the required Standards for a Variance set forth in Sect. 18-404 of the Zoning Ordinance.

WETLANDS: Land characterized by wetness for a portion of the growing season. Wetlands are generally delineated on the basis of physical characteristics such as soil properties indicative of wetness, the presence of vegetation with an affinity for water, and the presence or evidence of surface wetness or soil saturation. Wetland environments provide water quality improvement benefits and are ecologically valuable. Development activity in wetlands is subject to permitting processes administered by the U.S. Army Corps of Engineers

TIDAL WETLANDS: Vegetated and nonvegetated wetlands as defined in Chapter 116 Wetlands Ordinance of the Fairfax County Code: includes tidal shores and tidally influenced embayments, creeks, and tributaries to the Occoquan and Potomac Rivers. Development activity in tidal wetlands may require approval from the Fairfax County Wetlands Board.
