Subject: Hello Erin

Hello Erin,

I have decided to withdraw the application and go back to

7 children. But, I have a request and a question.

Is it possible to extend the time from June 16 to September first for dropping off the children? I have decided to ask older children who just turned 2 to leave my program, yet I do not like to force them to leave me since I have years of close relationship with their parents and I am like a grandma (their older siblings were at my care too). As you know, most preschools accept new children at the beginning of the school year which is September. If they can stay till then their parents will have enough time to find a new and proper place for their children to move in and I will feel much better letting them go.

Another question is about my own grandchild who will turn 3 in March and currently is one of the 12 children. She is already enrolled in a preschool for September. She may leave anytime as soon as the space is available for her, but if not can she still come to me either part time or full time till September?

I would deeply appreciate your consideration and kindness on behalf of myself and the parents of children in my care.

Thank you,

Mansoureh
